CD-ROM Patent Images by Technology

The U.S. Patent and Trademark Office announces the implementation of a demonstration project to provide classified sets of patent images in CD-ROM format. The classified sets are collections of U.S. patents which, by virtue of their placement in the U.S. Patent Classification System, represent meaningful technological groupings.

The two classified sets selected for this project are: Genetic Engineering, as defined by Class 935 and Class 435, subclass 172.3; and Acid Rain, as defined by Class 55, subclass 73 and Class 423, subclasses 220-234 and 242-244.

The sets will contain:

1) current classification information
2) full images for all patents in the set, and
3) full text for those patents in the set where the text is available in electronic format, i.e., since 1971

All available text and classification information will be indexed and searchable, thus allowing all patents in the set to be retrieved by their associated classification information, and/or by words in the text. Images of all patents in the set will be stored in numeric sequence on the discs and may be located on a disc other than the disc where the text and indexes are stored. Images may be retrieved by patent number after loading the appropriate image disc.

It is anticipated that the demonstration CD-ROM sets will be available July 1992. Each set will consist of approximately three discs. They are available for order now by the public for $150 per set. This price represents the marginal cost to the U.S. Patent and Trademark Office to produce and distribute these discs based upon the volume of orders anticipated.

Purchasers will be invited to participate in a voluntary survey to be conducted in October 1992 to assess the usefulness of this demonstration product.

Those regulations under the Patent Cooperation Treaty which have been either amended or added are presented in toto herein:

Rule 2

Interpretation of Certain Words

2.1 *"Applicant"*

Whenever the word "applicant" is used, it shall be construed as meaning also the agent or other representative of the applicant, except where the contrary clearly follows from the wording or the nature of the provision, or the context in which the word is used, such as, in particular, where the provision refers to the residence or nationality of the applicant.

2.2 *"Agent"*

Whenever the word "agent" is used, it shall be construed as meaning an agent appointed under Rule 90.1, unless the contrary clearly follows from the wording or the nature of the provision, or the context in which the word is used.

2.2*bis* *"Common Representative"*

Whenever the expression "common representative" is used, it shall be construed as meaning an applicant appointed as, or considered to be, the common representative under Rule 90.2.

2.3 *"Signature"*

Whenever the word "signature" is used, it shall be understood that, if the national law applied by the Receiving Office or the competent International Searching or Preliminary Examining Authority requires the use of a seal instead of a signature, the word, for the purposes of that Office or Authority, shall mean seal.

PART B

Rules Concerning Chapter I of the Treaty

The Request (Form)

3.1 *Form of Request*

The request shall be made on a printed form or be presented as a computer print-out.

3.2 *Availability of Forms*

Copies of the printed form shall be furnished free of charge to the applicants by the Receiving Office, or, if the Receiving Office so desires, by the International Bureau.

VOL 1139 ISS 3 JE 16 1992 UMI

3.3 *Check List*

(a) The request shall contain a list indicating:

(ii) whether or not the international application as filed is accompanied by a power of attorney (i.e., a document appointing an agent or a common representative), a copy of a general power of attorney, a priority document, a document relating to the payment of fees, and any other document (to be specified in the check list);

(iii) the number of that figure of the drawings which the applicant suggests should accompany the abstract when the abstract is published; in exceptional cases, the applicant may suggest more than one figure.

(b) The list shall be completed by the applicant, failing which the Receiving Office shall make the necessary indications, except that the number referred to in paragraph (a)(iii) shall not be indicated by the Receiving Office.

3.4 *Particulars*

(ii) a reference to any earlier international, international-type or other search,

(iii) choices of certain kinds of protection,

(iv) an indication that the applicant wishes to obtain a regional patent,

(d) For each applicant, inventor, or agent, only one address may be indicated, except that, if no agent has been appointed to represent the applicant, or all of them if more than one, the applicant or, if there is more than one applicant, the common representative, may indicate, in addition to any other address given in the request, an address to which notifications shall be sent.

4.5 *The Applicant*

(a) The request shall indicate the name, address, nationality and residence of the applicant or, if there are several applicants, of each of them.

(b) The applicant's nationality shall be indicated by the name of the state of which he is a national.

(c) The applicant's residence shall be indicated by the name of the state of which he is a resident.

(d) The request may, for different designated states, indicate different applicants. In such a case, the request shall indicate the applicant or applicants for each designated state or group of designated states.

4.6 *The Inventor*

(a) Where Rule 4.1(a)(v) applies, the request shall indicate the name and address of the inventor or, if there are several inventors, of each of them.

(b) If the applicant is the inventor, the request, in lieu of the indication under paragraph (a), shall contain a statement to that effect.

(c) The request may, for different designated states, indicate different persons as inventors where, in this respect, the requirements of the national laws of the designated states are not the same. In such a case, the request shall contain a separate statement for each designated state or group of states in which a particular person, or the same person, is to be considered the inventor, or in which particular persons, or the same persons, are to be considered the inventors.

4.7 *The Agent*

If agents are designated, the request shall so indicate, and shall state their names and addresses.

4.8 *Common Representative*

If a common representative is designated, the request shall so indicate.

4.9 *Designation of States*

(a) Contracting States shall be designated in the request:

(i) in the case of designations for the purpose of obtaining national patents, by an indication of each state concerned;

(ii) in the case of designations for the purpose of obtaining a regional patent, by an indication that a regional patent is desired either for all Contracting States which are party to the regional patent treaty concerned or only for such Contracting States as are specified.

(b) The request may contain an indication that all designations which would be permitted under the Treaty, other than those made under paragraph (a), are also made, provided that:

(i) at least one Contracting State is designated under paragraph (a), and

(ii) the request also contains a statement that any designation made under this paragraph is subject to confirmation as provided in paragraph (c) and that any designation which is not so confirmed before the expiration of 15 months from the priority date is to be regarded as withdrawn by the applicant at the expiration of that time limit.

(c) The confirmation of any designation made under paragraph (b) shall be effected by

(i) filing with the Receiving Office a written notice containing an indication as referred to in paragraph (a)(i) or (ii), and

(ii) paying to the Receiving Office the designation fee and the confirmation fee referred to in Rule 15.5 within the time limit under paragraph (b)(ii).

4.10 *Priority Claim*

(a) The declaration referred to in Article 8(1) shall be made in the request; it shall consist of a statement to the effect that the priority of an earlier application is claimed and shall indicate:

(i) when the earlier application is not a regional or an international application, the country in which it was filed; when the earlier application is a regional or an international application, the country or countries for which it was filed,

(ii) the date on which it was filed,

(iii) the number under which it was filed, and

(iv) when the earlier application is a regional or an international application, the national office or intergovernmental organization with which it was filed.

(b) If the request does not indicate both

(i) when the earlier application is not a regional or an international application, the country in which such earlier application was filed; when the earlier application is a regional or an international application, at least one country for which such earlier application was filed, and

(ii) the date on which the earlier application was filed,

the priority claim shall, for the purposes of the procedure under the Treaty, be considered not to have been made. However, where, resulting from an obvious error, the indication of the said country or the said date is missing or is erroneous, the Receiving Office may, at the request of the applicant, make the necessary correction. The error shall be considered as an obvious error whenever the correction is obvious from a comparison with the earlier application. Where the error consists of the omission of the indication of the said date, the correction can only be made before the transmittal of the record copy to the International Bureau. In the case of any other error relating to the indication of the said date or in the case of any error relating to the indication of the said country, the correction can only be made before the expiration of the time limit under Rule 17.1(a) computed on the basis of the correct priority date.

(c) If the application number of the earlier application is not indicated in the request but is furnished by the applicant to the International Bureau or to the Receiving Office prior to the expiration of the 16th month from the priority date, it shall be considered by all designated states to have been furnished in time.

(d) If the filing date of the earlier application as indicated in the request does not fall within the period of one year preceding the international filing date, the Receiving Office, or, if the Receiving Office has failed to do so, the International Bureau, shall invite the applicant to ask either for the cancellation of the declaration made under Article 8(1) or, if the date of the earlier application was indicated erroneously, for the correction of the date so indicated. If the applicant fails to act accordingly within one month from the date of the invitation, the declaration made under Article 8(1) shall be cancelled *ex officio*.

(e) Where the priorities of several earlier applications are claimed, the provisions of paragraphs (a) to (d) shall apply to each of them.

4.11 *Reference to Earlier Search*

VOL

UMI

If an international or international-type search has been requested on an application under Article 15(5) or if the applicant wishes the International Searching Authority to base the international search report wholly or in part on the results of a search, other than an international or international-type search, made by the national office or intergovernmental organization which is the International Searching Authority competent for the international application, the request shall contain a reference to that fact. Such reference shall either identify the application (or its translation, as the case may be) in respect of which the earlier search was made by indicating country, date and number, or the said search by indicating, where applicable, date and number of the request for such search.

4.12 *Choice of Certain Kinds of Protection*

(a) If the applicant wishes his international application to be treated, in any designated state, as an application not for a patent but for the grant of any of the other kinds of protection specified in Article 43, he shall so indicate in the request. For the purposes of this paragraph, Article 2(ii) shall not apply.

(b) In the case provided for in Article 44, the applicant shall indicate the two kinds of protection sought, or, if one of two kinds of protection is primarily sought, he shall indicate which kind is sought primarily and which kind is sought subsidiarily.

4.13 *Identification of Parent Application or Parent Grant*

If the applicant wishes his international application to be treated, in any designated state, as an application for a patent or certificate of addition, inventor's certificate of addition, or utility certificate of addition, he shall identify the parent application or the parent patent, parent inventor's certificate, or parent utility certificate to which the patent or certificate of addition, inventor's certificate of addition, or utility certificate of addition, if granted, relates. For the purposes of this paragraph Article 2(ii) shall not apply.

4.14 *Continuation or Continuation-in-Part*

If the applicant wishes his international application to be treated, in any designated state, as an application for a continuation or a continuation-in-part of an earlier application, he shall so indicate in the request and shall identify the parent application involved.

4.15 *Signature*

(a) Subject to paragraph (b), the request shall be signed by the applicant or, if there is more than one applicant, by all of them.

(b) Where two or more applicants file an international application which designates a state whose national law requires that national applications be filed by the inventor and where an applicant for that designated state who is an inventor refused to sign the request or could not be found or reached after diligent effort, the request need not be signed by that applicant if it is signed by at least one applicant and a statement is furnished explaining, to the satisfaction of the Receiving Office, the lack of the signature concerned.

4.16 *Transliteration or Translation of Certain Words*

(a) Where any name or address is written in characters other than those of the Latin alphabet, the same shall also be indicated in characters of the Latin alphabet either as a mere transliteration or through translation into English. The applicant shall decide which words

will be merely transliterated and which words will be so translated.

(b) The name of any country written in characters other than those of the Latin alphabet shall also be indicated in English.

4.17 *Additional Matter*

(a) The request shall contain no matter other than that specified in Rules 4.1 to 4.16, provided that the Administrative Instructions may permit, but cannot make mandatory, the inclusion in the request of any additional matter specified in the Administrative Instructions.

(b) If the request contains matter other than that specified in Rules 4.1 to 4.16 or permitted under paragraph (a) by the Administrative Instructions, the Receiving Office shall *ex officio* delete the additional matter.

Rule 5

The Description

5.1 *Manner of the Description*

(a) The description shall first state the title of the invention as appearing in the request and shall:

(i) specify the technical field to which the invention relates;

(ii) indicate the background art which, as far as known to the applicant, can be regarded as useful for the understanding, searching and examination of the invention, and, preferably, cite the documents reflecting such art;

(iii) disclose the invention, as claimed, in such terms that the technical problem (even if not expressly stated as such) and its solution can be understood, and state the advantageous effects, if any, of the invention with reference to the background art;

(iv) briefly describe the figures in the drawings, if any;

(v) set forth at least the best mode contemplated by the applicant for carrying out the invention claimed; this shall be done in terms of examples, where appropriate, and with reference to the drawings, if any; where the national law of the designated state does not require the description of the best mode but is satisfied with the description of any mode (whether it is the best contemplated or not), failure to describe the best mode contemplated shall have no effect in that state;

(vi) indicate explicitly, when it is not obvious from the description or nature of the invention, the way in which the invention is capable of exploitation in industry and the way in which it can be made and used, or, if it can only be used, the way in which it can be used; the term "industry" is to be understood in its broadest sense as in the Paris Convention for the Protection of Industrial Property.

(b) The manner and order specified in paragraph (a) shall be followed except when, because of the nature of the invention, a different manner or a different order would result in a better understanding and a more economic presentation.

(c) Subject to the provisions of paragraph (b), each of the parts referred to in paragraph (a) shall preferably be preceded by an appropriate heading as suggested in the Administrative Instructions.

5.2 *Nucleotide and/or Amino Acid Sequence Disclosure*

Where the international application contains disclosure of a nucleotide and/or amino acid sequence, the description shall contain a listing of the sequence complying with the standard prescribed by the Administrative Instructions.

Rule 11

Physical Requirements of the International Application

11.1 *Number of Copies*

(a) Subject to the provisions of paragraph (b), the international application and each of the documents referred to in the check list (Rule 3.3(a)(ii)) shall be filed in one copy.

(b) Any Receiving Office may require that the international application and any of the documents referred to in the check list (Rule 3.3(a)(ii)), except the receipt for the fees paid or the check for the payment of the fees, be filed in two or three copies. In that case, the Receiving Office shall be responsible for verifying the identity of the second and the third copies with the record copy.

11.2 *Fitness for Reproduction*

(a) All elements of the international application (i.e., the request, the description, the claims, the drawings, and the abstract) shall be so presented as to admit of direct reproduction by photography, electrostatic processes, photo offset, and microfilming, in any number of copies.

(b) All sheets shall be free from creases and cracks; they shall not be folded.

(c) Only one side of each sheet shall be used.

(d) Subject to Rule 11.10(d) and Rule 11.13(j), each sheet shall be used in an upright position (i.e., the short sides at the top and bottom).

11.3 *Material to Be Used*

All elements of the international application shall be on paper which shall be flexible, strong, white, smooth, non-shiny, and durable.

11.4 *Separate Sheets, Etc.*

(a) Each element (request, description, claims, drawings, abstract) of the international application shall commence on a new sheet.

(b) All sheets of the international application shall be so connected that they can be easily turned when consulted, and easily separated and joined again if they have been separated for reproduction purposes.

11.5 *Size of Sheets*

The size of the sheets shall be A4 (29.7 cm x 21 cm). However, any Receiving Office may accept international applications on sheets of other sizes provided that the record copy, as transmitted to the International Bureau, and, if the competent International Searching Authority so desires, the search copy, shall be of A4 size.

11.6 *Margins*

(a) The minimum margins of the sheets containing the description, the claims, and the abstract, shall be as follows:

- top: 2 cm
- left side: 2.5 cm
- right side: 2 cm
- bottom: 2 cm

(b) The recommended maximum, for the margins provided for in paragraph (a), is as follows:

- top: 4 cm
- left side: 4 cm
- right side: 3 cm
- bottom: 3 cm

(c) On sheets containing drawings, the surface usable shall not exceed 26.2 cm x 17.0 cm. The sheets shall not contain frames around the usable or used surface. The minimum margins shall be as follows:

- top: 2.5 cm
- left side: 2.5 cm
- right side: 1.5 cm
- bottom: 1.0 cm

(d) The margins referred to in paragraphs (a) to (c) apply to A4-size sheets, so that, even if the receiving Office accepts other sizes, the A4-size record copy and, when so required, the A4-size search copy shall leave the aforesaid margins.

(e) Subject to paragraph (f) and to Rule 11.8(b), the margins of the international application, when submitted, must be completely blank.

(f) The top margin may contain in the left-hand corner an indication of the applicant's file reference, provided that the reference appears within 1.5 cm from the top of the sheet. The number of characters in the applicant's file reference shall not exceed the maximum fixed by the Administrative Instructions.

11.7 *Numbering of Sheets*

(a) All the sheets contained in the international application shall be numbered in consecutive Arabic numerals.

(b) The numbers shall be centered at the top or bottom of the sheet, but shall not be placed in the margin.

11.8 *Numbering of Lines*

(a) It is strongly recommended to number every fifth line of each sheet of the description, and of each sheet of claims.

(b) The numbers should appear in the right half of the left margin.

11.9 *Writing of Text Matter*

(a) The request, the description, the claims and the abstract shall be typed or printed.

(b) Only graphic symbols and characters, chemical or mathematical formulae, and certain characters in the Japanese language may, when necessary, be written by hand or drawn.

(c) The typing shall be 1 1/2-spaced.

(d) All text matter shall be in characters the capital letters of which are not less than 0.21 cm high, and shall be in a dark, indelible color, satisfying the requirements specified in Rule 11.2.

(e) As far as the spacing of the typing and the size of the characters are concerned, paragraphs (c) and (d) shall not apply to texts in the Japanese language.

11.10 *Drawings, Formulae, and Tables, in Text Matter*

(a) The request, the description, the claims and the abstract shall not contain drawings.

(b) The description, the claims and the abstract may contain chemical or mathematical formulae.

(c) The description and the abstract may contain tables; any claim may contain tables only if the subject matter of the claim makes the use of tables desirable.

(d) Tables and chemical or mathematical formulae may be placed sideways on the sheet if they cannot be presented satisfactorily in an upright position thereon; sheets on which tables or chemical or mathematical formulae are presented sideways shall be so presented that the tops of the tables or formulae are at the left side of the sheet.

11.11 *Words in Drawings*

(a) The drawings shall not contain text matter, except a single word or words, when absolutely indispensable, such as "water," "steam," "open," "closed," "section on AB," and, in the case of electric circuits and block schematic or flow sheet diagrams, a few short catchwords indispensable for understanding.

(b) Any words used shall be so placed that, if translated, they may be pasted over without interfering with any lines of the drawings.

11.12 *Alterations, Etc.*

Each sheet shall be reasonably free from erasures and shall be free from alterations, overwritings, and interlineations. Non-compliance with this Rule may be authorized if the authenticity of the content is not in question and the requirements for good reproduction are not in jeopardy.

11.13 *Special Requirements for Drawings*

(a) Drawings shall be executed in durable, black, sufficiently dense and dark, uniformly thick and well-defined, lines and strokes without colorings.

(b) Cross-sections shall be indicated by oblique hatching which should not impede the clear reading of the reference signs and leading lines.

(c) The scale of the drawings and the distinctness of their graphical execution shall be such that a photographic reproduction with a linear reduction in size to two-thirds would enable all details to be distinguished without difficulty.

(d) When, in exceptional cases, the scale is given on a drawing, it shall be represented graphically.

(e) All numbers, letters and reference lines, appearing on the drawings, shall be simple and clear. Brackets, circles or inverted commas shall not be used in association with numbers and letters.

(f) All lines in the drawings shall, ordinarily, be drawn with the aid of drafting instruments.

(g) Each element of each figure shall be in proper proportion to each of the other elements in the figure, except where the use of a different proportion is indispensable for the clarity of the figure.

(h) The height of the numbers and letters shall not be less than 0.32 cm. For the lettering of drawings, the Latin and, where customary, the Greek alphabets shall be used.

(i) The same sheet of drawings may contain several figures. Where figures on two or more sheets form in effect a single complete figure, the figures on the several sheets shall be so arranged that the complete figure can be assembled without concealing any part of any of the figures appearing on the various sheets.

(j) The different figures shall be arranged on a sheet or sheets without wasting space, preferably in an upright position, clearly separated from one another. Where the figures are not arranged in an upright position, they shall be presented sideways with the top of the figures at the left side of the sheet.

(k) The different figures shall be numbered in Arabic numerals consecutively and independently of the numbering of the sheets.

(l) Reference signs not mentioned in the description shall not appear in the drawings, and vice versa.

(m) The same features, when denoted by reference signs, shall, throughout the international application, be denoted by the same signs.

(n) If the drawings contain a large number of reference signs, it is strongly recommended to attach a separate sheet listing all reference signs and the features denoted by them.

11.14 *Later Documents*

Rules 10, and 11.1 to 11.13, also apply to any document for - example, corrected pages, amended claims - submitted after the filing of the international application.

Rule 12

Language of the International Application

12.1 *Admitted Languages*

(a) Any international application shall be filed in the language, or one of the languages, specified in the agreement concluded between the International Bureau and the International Searching Authority competent for the international searching of that application, provided that, if the agreement specifies several languages, the Receiving Office may prescribe among the specified languages that language in which or those languages in one of which the international application must be filed.

(b) Notwithstanding paragraph (a), the request, any text matter of the drawings, and the abstract need not be in the same language as other elements of the international application, provided that:

(i) the request is in a language admitted under paragraph (a)

or in the language in which the international application is to be published;

(ii) the text matter of the drawings is in the language in which the international application is to be published;

(iii) the abstract is in the language in which the international application is to be published.

(c) Subject to paragraph (d), where the official language of the receiving Office is one of the languages referred to in Rule 48.3(a) but is a language not specified in the agreement referred to in paragraph (a), the international application may be filed in the said official language. If the international application is filed in the said official language, the search copy transmitted to the International Searching Authority under Rule 23.1 shall be accompanied by a translation into the language, or one of the languages, specified in the agreement referred to in paragraph (a); such translation shall be prepared under the responsibility of the receiving Office.

(d) Paragraph (c) shall apply only where the International Searching Authority has declared, in a notification addressed to the International Bureau, that it accepts to search international applications on the basis of the translation referred to in paragraph (c).

12.2 *Language of Changes in the International Application*

Any changes in the international application, such as amendments and corrections, shall, subject to Rules 46.3 and 66.9, be in the same language as the said application.

Rule 13

Unity of Invention

13.1 *Requirement*

The international application shall relate to one invention only or to a group of inventions so linked as to form a single general inventive concept ("requirement of unity of invention").

13.2 *Circumstances in Which the Requirement of Unity of Invention Is to Be Considered Fulfilled*

Where a group of inventions is claimed in one and the same international application, the requirement of unity of invention referred to in Rule 13.1 shall be fulfilled only when there is a technical relationship among those inventions involving one or more of the same or corresponding special technical features. The expression "special technical features" shall mean those technical features that define a contribution which each of the claimed inventions, considered as a whole, makes over the prior art.

13.3 *Determination of Unity of Invention Not Affected by Manner of Claiming*

The determination whether a group of inventions is so linked as to form a single general inventive concept shall be made without regard to whether the inventions are claimed in separate claims or as alternatives within a single claim.

13.4 *Dependent Claims*

Subject to Rule 13.1, it shall be permitted to include in the

same international application a reasonable number of dependent claims, claiming specific forms of the invention claimed in an independent claim, even where the features of any dependent claim could be considered as constituting in themselves an invention.

13.5 *Utility Models*

Any designated State in which the grant of a utility model is sought on the basis of an international application may, instead of Rules 13.1 to 13.4, apply in respect of the matters regulated in those Rules the provisions of its national law concerning utility models once the processing of the international application has started in that State, provided that the applicant shall be allowed at least two months from the expiration of the time limit applicable under Article 22 to adapt his application to the requirements of the said provisions of the national law.

Rule 13ter

Nucleotide and/or Amino Acid Sequence Listings

13ter.1 *Sequence Listing for International Authorities*

(a) If the International Searching Authority finds that a nucleotide and/or amino acid sequence listing does not comply with the standard prescribed in the Administrative Instructions under Rule 5.2, and/or is not in a machine readable form provided for in those Instructions, it may invite the applicant, within a time limit fixed in the invitation, as the case may be:

(i) to furnish to it a listing of the sequence complying with the prescribed standard, and/or

(ii) to furnish to it a listing of the sequence in a machine readable form provided for in the Administrative Instructions or, if that Authority is prepared to transcribe the sequence listing into such a form, to pay for the cost of such transcription.

(b) Any sequence listing furnished under paragraph (a) shall be accompanied by a statement to the effect that the listing does not include matter which goes beyond the disclosure in the international application as filed.

(c) If the applicant does not comply with the invitation within the time limit fixed in the invitation, the International Searching Authority shall not be required to search the international application to the extent that such non-compliance has the result that a meaningful search cannot be carried out.

(d) If the International Searching Authority chooses, under paragraph (a)(ii), to transcribe the sequence listing into a machine readable form, it shall send a copy of such transcription in machine readable form to the applicant.

(e) The International Searching Authority shall, upon request, make available to the International Preliminary Examining Authority a copy of any sequence listing furnished to it, or as transcribed by it, under paragraph (a).

(f) A sequence listing furnished to the International Searching Authority, or as transcribed by it, under paragraph (a) shall not form part of the international application.

13ter.2 *Sequence Listing for Designated Office*

(a) Once the processing of the international application has started before a designated Office, that Office may require the applicant to furnish to it a copy of any sequence listing furnished to the International Searching Authority, or as transcribed by that Authority, under Rule 13ter.1(a).

(b) If a designated Office finds that a nucleotide and/or amino acid sequence listing does not comply with the standard prescribed in the Administrative Instructions under Rule 5.2, and/or is not in a machine readable form provided for in those Instructions, and/or no listing of the sequence was furnished to the International Searching Authority, or transcribed by that Authority, under Rule 13ter.1(a), that Office may require the applicant:

(i) to furnish to it a listing of the sequence complying with the prescribed standard, and/or

(ii) to furnish to it a listing of the sequence in a machine readable form provided for in the Administrative Instructions or, if that Office is prepared to transcribe the sequence listing into such a form, to pay for the cost of such transcription.

Rule 15

The International Fee

15.1 *Basic Fee and Designation Fee*

Each international application shall be subject to the payment of a fee for the benefit of the International Bureau ("international fee") to be collected by the receiving Office and consisting of,

(i) a "basic fee," and

(ii) as many "designation fees" as there are national patents and regional patents sought under Rule 4.9(a) by the applicant in the international application, except that, where Article 44 applies in respect of a designation, only one designation fee shall be due for that designation.

15.2 *Amounts*

(a) The amounts of the basic fee and of the designation fee are as set out in the Schedule of Fees.

(b) The amounts of the basic fee and of the designation fee shall be established, for each receiving Office which, under Rule 15.3, prescribes the payment of those fees in a currency or currencies other than Swiss currency, by the Director General after consultation with that Office and in the currency or currencies prescribed by that Office ("prescribed currency"). The amounts in each prescribed currency shall be the equivalent, in round figures, of the amounts in Swiss currency set out in the Schedule of Fees. They shall be published in the Gazette.

(c) Where the amounts of the fees set out in the Schedule of Fees are changed, the corresponding amounts in the prescribed currencies shall be applied from the same date as the amounts set out in the amended Schedule of Fees.

(d) Where the exchange rate between Swiss currency and any prescribed currency becomes different from the exchange rate last applied, the Director General shall establish new amounts in the prescribed currency according to directives given by the Assembly. The newly established amounts shall become applicable two months after the date of their publication in the Gazette, provided that the interested Office and the Director General may agree on a date falling during the said two-month period in which case the said amounts shall become applicable for that Office from that date.

15.3 *Mode of Payment*

The international fee shall be payable in the currency or currencies prescribed by the receiving Office, it being understood that, when transferred by the receiving Office to the International Bureau, the amount transferred shall be freely convertible into Swiss currency.

15.4 *Time of Payment*

(a) The basic fee shall be paid within one month from the date of receipt of the international application.

(b) The designation fee shall be paid:

(i) where the international application does not contain a priority claim under Article 8, within one year from the date of receipt of the international application,

(ii) where the international application contains a priority claim under Article 8, within one year from the priority date or within one month from the date of receipt of the international application if that month expires after the expiration of one year from the priority date.

(c) Where the basic fee or the designation fee is paid later than the date on which the international application was received and where the amount of that fee is, in the currency in which it is payable, higher on the date of payment ("the higher amount") than it was on the date on which the international application was received ("the lower amount"),

(i) the lower amount shall be due if the fee is paid within one month from the date of receipt of the international application,

(ii) the higher amount shall be due if the fee is paid later than one month from the date of receipt of the international application.

15.5 *Fees Under Rule 4.9(c)*

(a) Notwithstanding Rule 15.4(b), the confirmation under Rule 4.9(c) of any designations made under Rule 4.9(b) shall be subject to the payment to the receiving Office of as many designation fees (for the benefit of the International Bureau) as there are national patents and regional patents sought by the applicant by virtue of the confirmation, together with a confirmation fee (for the benefit of the receiving Office), as set out in the Schedule of Fees.

(b) Where moneys paid by the applicant within the time limit under Rule 4.9(b)(ii) are not sufficient to cover the fees due under paragraph (a), the receiving Office shall allocate any moneys paid as specified by the applicant or, in the absence of such specification, as prescribed by the Administrative Instructions.

15.6 *Refund*

The receiving Office shall refund the international fee to the applicant:

(i) if the determination under Article 11(1) is negative, or

Rule 16

The Search Fee

16.1 *Right to Ask for a Fee*

(a) Each International Searching Authority may require that the applicant pay a fee ("search fee") for its own benefit for carrying out the international search and for performing all other tasks entrusted to International Searching Authorities by the Treaty and these Regulations.

(b) The search fee shall be collected by the receiving Office. The said fee shall be payable in the currency or currencies prescribed by that Office ("the receiving Office currency"), it being understood that, if any receiving Office currency is not that, or one of those, in which the International Searching Authority has fixed the said fee ("the fixed currency or currencies"), it shall, when transferred by the receiving Office to the International Searching Authority, be freely convertible into the currency of the State in which the International Searching Authority has its headquarters ("the headquarters currency"). The amount of the search fee in any receiving Office currency, other than the fixed currency or currencies, shall be established by the Director General after consultation with that Office. The amounts so established shall be the equivalents, in round figures, of the amount established by the International Searching Authority in the headquarters currency. They shall be published in the Gazette.

(c) Where the amount of the search fee in the headquarters currency is changed, the corresponding amounts in the receiving Office currencies, other than the fixed currency or currencies, shall be applied from the same date as the changed amount in the headquarters currency.

(d) Where the exchange rate between the headquarters currency and any receiving Office currency, other than the fixed currency or currencies, becomes different from the exchange rate last applied, the Director General shall establish the new amount in the said receiving Office currency according to directives given by the Assembly. The newly established amount shall become applicable two months after its publication in the Gazette, provided that any interested receiving Office and the Director General may agree on a date falling during the said two-month period in which case the said amount shall become applicable for that Office from that date.

(e) Where, in respect of the payment of the search fee in a receiving Office currency, other than the fixed currency or currencies, the amount actually received by the International Searching Authority in the headquarters currency is less than that fixed by it, the difference will be paid to the International Searching Authority by the International Bureau, whereas, if the amount actually received is more, the difference will belong to the International Bureau.

(f) As to the time of payment of the search fee, the provisions of Rule 15.4 relating to the basic fee shall apply.

16.2 *Refund*

The receiving Office shall refund the search fee to the applicant:

(i) if the determination under Article 11(1) is negative, or

(ii) if, before the transmittal of the search copy to the International Searching Authority, the international application is withdrawn or considered withdrawn.

16.3 *Partial Refund*

Where the international application claims the priority of an earlier international application which has been the subject of an international search by the same International Searching Authority, that Authority shall refund the search fee paid in connection with the later international application to the extent and under the conditions provided for in the agreement under Article 16(3)(b), if the international search report on the later international application could wholly or partly be based on the results of the international search effected on the earlier international application.

Rule 16*bis*

Extension of Time Limits for Payment of Fees

16*bis*.1 *Invitation by the Receiving Office*

(a) Where, by the time they are due under Rule 14.1(b), Rule 15.4(a) and Rule 16.1(f), the receiving Office finds that in respect of an international application no fees were paid to it by the applicant, or that the amount paid to it by the applicant is less than what is necessary to cover the transmittal fee, the basic fee and the search fee, the receiving Office shall invite the applicant to pay to it the amount required to cover those fees, together with, where applicable, the late payment fee under Rule 16*bis*.2, within one month from the date of the invitation.

(b) Where, by the time they are due under Rule 15.4(b), the receiving Office finds that in respect of an international application the payment made by the applicant is insufficient to cover the designation fees necessary to cover all the designations under Rule 4.9(a), the receiving Office shall invite the applicant to pay to it the amount required to cover those fees, together with, where applicable, the late payment fee under Rule 16*bis*.2, within one month from the date of the invitation.

(c) Where the receiving Office has sent to the applicant an invitation under paragraph (a) or (b) and the applicant has not, within one month from the date of the invitation, paid in full the amount due, including, where applicable, the late payment fee under Rule 16*bis*.2, the receiving Office shall:

(i) allocate any moneys paid as specified by the applicant or, in the absence of such specification, as prescribed by the Administrative Instructions,

(ii) make the applicable declaration under Article 14(3), and

(iii) proceed as provided in Rule 29.

16*bis*.2 *Late Payment Fee*

(a) The payment of fees in response to an invitation under Rule 16*bis*.1(a) or (b) may be subjected by the receiving Office to the payment to it of a late payment fee. The amount of that fee shall be:

(i) 50% of the amount of unpaid fees which is specified in the invitation, or,

VOL 1139 ISS 3 JE 16 1992 UMI

(ii) if the amount calculated under item (i) is less than the transmittal fee, an amount equal to the transmittal fee.

(b) The amount of the late payment fee shall not, however, exceed the amount of the basic fee.

Rule 17

The Priority Document

17.1 *Obligation to Submit Copy of Earlier National Application*

(a) Where the priority of an earlier national application is claimed under Article 8 in the international application, a copy of the said national application, certified by the authority with which it was filed ("the priority document"), shall, unless already filed with the receiving Office together with the international application, be submitted by the applicant to the International Bureau or to the receiving Office not later than 16 months after the priority date or, in the case referred to in Article 23(2), not later than at the time the processing or examination is requested.

(b) Where the priority document is issued by the receiving Office, the applicant may, instead of submitting the priority document, request the receiving Office to transmit the priority document to the International Bureau. Such request shall be made not later than the expiration of the applicable time limit referred to under paragraph (a) and may be subjected by the receiving Office to the payment of a fee.

(c) If the requirements of neither of the two preceding paragraphs are complied with, any designated State may disregard the priority claim.

17.2 *Availability of Copies*

(a) The International Bureau shall, at the specific request of the designated Office, promptly but not before the expiration of the time limit fixed in Rule 17.1(a), furnish a copy of the priority document to that Office. No such Office shall ask the applicant himself to furnish it with a copy, except where it requires the furnishing of a copy of the priority document together with a certified translation thereof. The applicant shall not be required to furnish a certified translation to the designated Office before the expiration of the applicable time limit under Article 22.

(b) The International Bureau shall not make copies of the priority document available to the public prior to the international publication of the international application.

(c) Where the international application has been published under Article 21, the International Bureau shall furnish a copy of the priority document to any person upon request and subject to reimbursement of the cost unless, prior to that publication:

(i) the international application was withdrawn,

(ii) the relevant priority claim was withdrawn or was considered, under Rule 4.10(b), not to have been made, or

(iii) the relevant declaration under Article 8(1) was cancelled under Rule 4.10(d).

(d) Paragraphs (a) to (c) shall apply also to any earlier international application whose priority is claimed in the subsequent international application.

The Applicant

18.1 *Residence*

(a) Subject to the provisions of paragraph (b), the question whether an applicant is a resident of the Contracting State of which he claims to be a resident shall depend on the national law of that State and shall be decided by the receiving Office.

(b) In any case, possession of a real and effective industrial or commercial establishment in a Contracting State shall be considered residence in that State.

18.2 *Nationality*

(a) Subject to the provisions of paragraph (b), the question whether an applicant is a national of the Contracting State of which he claims to be a national shall depend on the national law of that State and shall be decided by the receiving Office.

(b) In any case, a legal entity constituted according to the national law of a Contracting State shall be considered a national of that State.

18.3 *Two or More Applicants*

If there are two or more applicants, the right to file an international application shall exist if at least one of them is entitled to file an international application according to Article 9.

18.4 *Information on Requirements Under National Law as to Applicants*

(a) *[Deleted]*

(b) *[Deleted]*

(c) The International Bureau shall, from time to time, publish information on the various national laws in respect of the question who is qualified (inventor, successor in title of the inventor, owner of the invention, or other) to file a national application and shall accompany such information by a warning that the effect of the international application in any designated State may depend on whether the person designated in the international application as applicant for the purposes of that State is a person who, under the national law of that State, is qualified to file a national application.

Rule 19

The Competent Receiving Office

19.1 *Where to File*

(a) Subject to the provisions of paragraph (b), the international application shall be filed, at the option of the applicant, with the national Office of or acting for the Contracting State of which the applicant is a resident or with the national Office of or acting for the Contracting State of which the applicant is a national.

(b) Any Contracting State may agree with another Contracting State or any intergovernmental organization that the national Office of the latter State or the intergovernmental organization shall, for all or

VOL 1139 ISS 3 JE 16 1992 UMI

some purposes, act instead of the national Office of the former State as receiving Office for applicants who are residents or nationals of that former State. Notwithstanding such agreement, the national Office of the former State shall be considered the competent receiving Office for the purposes of Article 15(5).

(c) In connection with any decision made under Article 9(2), the Assembly shall appoint the national Office or the intergovernmental organization which will act as receiving Office for applications of residents or nationals of States specified by the Assembly. Such appointment shall require the previous consent of the said national Office or intergovernmental organization.

19.2 *Two or More Applicants*

If there are two or more applicants, the requirements of Rule 19.1 shall be considered to be met if the national Office with which the international application is filed is the national Office of or acting for a Contracting State of which at least one of the applicants is a resident or national.

19.3 *Publication of Fact of Delegation of Duties of Receiving Office*

(a) Any agreement referred to in Rule 19.1(b) shall be promptly notified to the International Bureau by the Contracting State which delegates the duties of the receiving Office to the national Office of or acting for another Contracting State or an intergovernmental organization.

(b) The International Bureau shall, promptly upon receipt, publish the notification in the Gazette.

Rule 20

Receipt of the International Application

20.1 *Date and Number*

(a) Upon receipt of papers purporting to be an international application, the receiving Office shall indelibly mark the date of actual receipt on the request of each copy received and the international application number on each sheet of each copy received.

(b) The place on each sheet where the date or number shall be marked, and other details, shall be specified in the Administrative Instructions.

20.2 *Receipt on Different Days*

(a) In cases where all the sheets pertaining to the same purported international application are not received on the same day by the receiving Office, that Office shall correct the date marked on the request (still leaving legible, however, the earlier date or dates already marked) so that it indicates the day on which the papers completing the international application were received, provided that

(i) where no invitation under Article 11(2)(a) to correct was sent to the applicant, the said papers are received within 30 days from the date on which sheets were first received;

(ii) where an invitation under Article 11(2)(a) to correct was sent to the applicant, the said papers are received within the applicable time limit under Rule 20.6;

(iii) in the case of Article 14(2), the missing drawings are received within 30 days from the date on which the incomplete papers

were filed;

(iv) the absence or later receipt of any sheet containing the abstract or part thereof shall not, in itself, require any correction of the date marked on the request.

(b) Any sheet received on a date later than the date on which sheets were first received shall be marked by the receiving Office with the date on which it was received.

20.3 *Corrected International Application*

In the case referred to in Article 11(2)(b), the receiving Office shall correct the date marked on the request (still leaving legible, however, the earlier date or dates already marked) so that it indicates the day on which the last required correction was received.

20.4 *Determination under Article 11(1)*

(a) Promptly after receipt of the papers purporting to be an international application, the receiving Office shall determine whether the papers comply with the requirements of Article 11(1).

(b) For the purposes of Article 11(1)(iii)(c), it shall be sufficient to indicate the name of the applicant in a way which allows his identity to be established even if the name is misspelled, the given names are not fully indicated, or, in the case of legal entities, the indication of the name is abbreviated or incomplete.

(c) For the purposes of Article 11(1)(ii), it shall be sufficient that the elements referred to in Article 11(1)(iii)(d) and (e) be in a language admitted under Rule 12.1(a) or (c).

(d) If, on July 12, 1991, paragraph (c) is not compatible with the national law applied by the receiving Office, paragraph (c) shall not apply to that receiving Office for as long as it continues not to be compatible with that law, provided that the said Office informs the International Bureau accordingly by December 31, 1991. The information received shall be promptly published by the International Bureau in the Gazette.

20.5 *Positive Determination*

(a) If the determination under Article 11(1) is positive, the receiving Office shall stamp on the request the name of the receiving Office and the words "PCT International Application," or "Demande internationale PCT." If the official language of the receiving Office is neither English nor French, the words "International Application" or "Demande internationale" may be accompanied by a translation of these words in the official language of the receiving Office.

(b) The copy whose request has been so stamped shall be the record copy of the international application.

(c) The receiving Office shall promptly notify the applicant of the international application number and the international filing date. At the same time, it shall send to the International Bureau a copy of the notification sent to the applicant, except where it has already sent, or is sending at the same time, the record copy to the International Bureau under Rule 22.1(a).

20.6 *Invitation to Correct*

(a) The invitation to correct under Article 11(2) shall specify the requirement provided for under Article 11(1) which, in the opinion of the receiving Office, has not been fulfilled.

(b) The receiving Office shall promptly mail the invitation to the applicant and shall fix a time limit, reasonable under the circumstances of the case, for filing the correction. The time limit shall not be less than 10 days, and shall not exceed one month, from the date of the invitation. If such time limit expires after the expiration of one year from the filing date of any application whose priority is claimed, the receiving Office may call this circumstance to the attention of the applicant.

20.7 *Negative Determination*

If the receiving Office does not, within the prescribed time limit, receive a reply to its invitation to correct, or if the correction offered by the applicant still does not fulfill the requirements provided for under Article 11(1), it shall:

(i) promptly notify the applicant that his application is not and will not be treated as an international application and shall indicate the reasons therefor,

(ii) notify the International Bureau that the number it has marked on the papers will not be used as an international application number,

(iii) keep the papers constituting the purported international application and any correspondence relating thereto as provided in Rule 93.1, and

(iv) send a copy of the said papers to the International Bureau where, pursuant to a request by the applicant under Article 25(1), the International Bureau needs such a copy and specially asks for it.

20.8 *Error by the Receiving Office*

If the receiving Office later discovers, or on the basis of the applicant's reply realizes, that it has erred in issuing an invitation to correct since the requirements provided for under Article 11(1) were fulfilled when the papers were received, it shall proceed as provided in Rule 20.5.

20.9 *Certified Copy for the Applicant*

Against payment of a fee, the receiving Office shall furnish to the applicant, on request, certified copies of the international application as filed and of any corrections thereto.

Rule 23

Transmittal of the Search Copy

23.1 *Procedure*

(a) The search copy shall be transmitted by the receiving Office to the International Searching Authority at the latest on the same day as the record copy is transmitted to the International Bureau unless no search fee has been paid. In the latter case, it shall be transmitted promptly after payment of the search fee.

(b) *[Deleted]*

Rule 24

Receipt of the Record Copy by the International Bureau

24.1 *[Deleted]*

24.2 *Notification of Receipt of the Record Copy*

(a) The International Bureau shall promptly notify:

(i) the applicant,

(ii) the receiving Office, and

(iii) the International Searching Authority (unless it has informed the International Bureau that it wishes not to be so notified), of the fact and the date of receipt of the record copy. The notification shall identify the international application by its number, the international filing date and the name of the applicant, and shall indicate the filing date of any earlier application whose priority is claimed. The notification sent to the applicant shall also contain a list of the States designated under Rule 4.9(a) and, where applicable, of those States whose designations have been confirmed under Rule 4.9(c).

(b) Each designated Office which has informed the International Bureau that it wishes to receive the notification under paragraph (a) prior to the communication under Rule 47.1 shall be so notified by the International Bureau:

(i) if the designation concerned was made under Rule 4.9(a), promptly after the receipt of the record copy;

(ii) if the designation concerned was made under Rule 4.9(b), promptly after the International Bureau has been informed by the receiving Office of the confirmation of that designation.

(c) If the record copy is received after the expiration of the time limit fixed in Rule 22.3, the International Bureau shall promptly notify the applicant, the receiving Office, and the International Searching Authority, accordingly.

Rule 26

Checking by, and Correcting before, the Receiving Office of Certain Elements of the International Application

26.1 *Time Limit for Check*

(a) The receiving Office shall issue the invitation to correct provided for in Article 14(1)(b) as soon as possible, preferably within one month from the receipt of the international application.

(b) If the receiving Office issues an invitation to correct the defect referred to in Article 14(1)(a)(iii) or (iv) (missing title or missing abstract), it shall notify the International Searching Authority accordingly.

26.2 *Time Limit for Correction*

The time limit referred to in Article 14(1)(b) shall be reasonable under the circumstances and shall be fixed in each case by the receiving Office. It shall not be less than one month from the date of the invitation to correct. It may be extended by the receiving Office

at any time before a decision is taken.

26.3 *Checking of Physical Requirements under Article 14(1)(a)(v)*

The physical requirements referred to in Rule 11 shall be checked only to the extent that compliance therewith is necessary for the purpose of reasonably uniform international publication.

26.3*bis* *Invitation to Correct Defects under Article 14(1)(b)*

The receiving Office shall not be required to issue the invitation to correct a defect under Article 14(1)(a)(v) where the physical requirements referred to in Rule 11 are complied with to the extent necessary for the purpose of reasonably uniform international publication.

26.3*ter* *Invitation to Correct Defects under Article 3(4)(i)*

(a) Where any element of the international application, other than those referred to in Article 11(1)(iii)(d) and (e), does not comply with Rule 12.1, the receiving Office shall invite the applicant to file the required correction. Rules 26.1(a), 26.2, 26.5 and 29.1 shall apply *mutatis mutandis*.

(b) If, on July 12, 1991, paragraph (a) is not compatible with the national law applied by the receiving Office, paragraph (a) shall not apply to that receiving Office for as long as it continues not to be compatible with that law, provided that the said Office informs the International Bureau accordingly by December 31, 1991. The information received shall be promptly published by the International Bureau in the Gazette.

26.4 *Procedure*

(a) Any correction offered to the receiving Office may be stated in a letter addressed to that Office if the correction is of such a nature that it can be transferred from the letter to the record copy without adversely affecting the clarity and the direct reproducibility of the sheet on to which the correction is to be transferred; otherwise, the applicant shall be required to submit a replacement sheet embodying the correction and the letter accompanying the replacement sheet shall draw attention to the differences between the replaced sheet and the replacement sheet.

(b) to (d) *[Deleted]*

26.5 *Decision of the Receiving Office*

(a) The receiving Office shall decide whether the applicant has submitted the correction within the time limit under Rule 26.2 and, if the correction has been submitted within that time limit, whether the international application so corrected is or is not to be considered withdrawn, provided that no international application shall be considered withdrawn for lack of compliance with the physical requirements referred to in Rule 11 if it complies with those requirements to the extent necessary for the purpose of reasonably uniform international publication.

(b) *[Deleted]*

26.6 *Missing Drawings*

(a) If, as provided in Article 14(2), the international application refers to drawings which in fact are not included in that application, the receiving Office shall so indicate in the said application.

(b) The date on which the applicant receives the notification provided for in Article 14(2) shall have no effect on the time limit fixed under Rule 20.2(a)(iii).

Rule 27

Lack of Payment of Fees

27.1 *Fees*

(a) For the purposes of Article 14(3)(a), "fees prescribed under Article 3(4)(iv)" means: the transmittal fee (Rule 14), the basic fee part of the international fee (Rule 15.1(i)), the search fee (Rule 16), and, where required, the late payment fee (Rule 16*bis*.2).

(b) For the purposes of Article 14(3)(a) and (b), "the fee prescribed under Article 4(2)" means the designation fee part of the international fee (Rule 15.1(ii)) and, where required, the late payment fee (Rule 16*bis*.2).

Rule 29

International Applications or Designations Considered Withdrawn under Article 14(1), (3) or (4)

29.1 *Finding by Receiving Office*

(a) If the receiving Office declares, under Article 14(1)(b) and Rule 26.5 (failure to correct certain defects), or under Article 14(3)(a) (failure to pay the prescribed fees under Rule 27.1(a)), or under Article 14(4) (later finding of non-compliance with the requirements listed in items (i) to (iii) of Article 11(1)), that the international application is considered withdrawn:

(i) the receiving Office shall transmit the record copy (unless already transmitted), and any correction offered by the applicant, to the International Bureau;

(ii) the receiving Office shall promptly notify both the applicant and the International Bureau of the said declaration, and the International Bureau shall in turn notify each designated Office which has already been notified of its designation;

(iii) the receiving Office shall not transmit the search copy as provided in Rule 23, or, if such copy has already been transmitted, it shall notify the International Searching Authority of the said declaration;

(iv) the International Bureau shall not be required to notify the applicant of the receipt of the record copy.

(b) If the receiving Office declares under Article 14(3)(b) (failure to pay the prescribed designation fee under Rule 27.1(b)) that the designation of any given State is considered withdrawn, the receiving Office shall promptly notify both the applicant and the International Bureau of the said declaration. The International Bureau shall in turn notify each designated Office which has already been notified of its designation.

29.3 *Calling Certain Facts to the Attention of the Receiving Office*

If the International Bureau or the International Searching Authority considers that the receiving Office should make a finding under Article 14(4), it shall call the relevant facts to the attention of the receiving Office.

29.4 *Notification of Intent to Make Declaration under Article 14(4)*

Before the receiving Office issues any declaration under Article 14(4), it shall notify the applicant of its intent to issue such declaration and the reasons therefor. The applicant may, if he disagrees with the tentative finding of the receiving Office, submit arguments to that effect within one month from the notification.

Rule 33

Relevant Prior Art for the International Search

33.1 *Relevant Prior Art for the International Search*

(a) For the purposes of Article 15(2), relevant prior art shall consist of everything which has been made available to the public anywhere in the world by means of written disclosure (including drawings and other illustrations) and which is capable of being of assistance in determining that the claimed invention is or is not new and that it does or does not involve an inventive step (i.e., that it is or is not obvious), provided that the making available to the public occurred prior to the international filing date.

(b) When any written disclosure refers to an oral disclosure, use, exhibition, or other means whereby the contents of the written disclosure were made available to the public, and such making available to the public occurred on a date prior to the international filing date, the international search report shall separately mention that fact and the date on which it occurred if the making available to the public of the written disclosure occurred on a date which is the same as, or later than, the international filing date.

(c) Any published application or any patent whose publication date is the same as, or later than, but whose filing date, or, where applicable, claimed priority date, is earlier than the international filing date of the international application searched, and which would constitute relevant prior art for the purposes of Article 15(2) had it been published prior to the international filing date, shall be specially mentioned in the international search report.

33.2 *Fields to Be Covered by the International Search*

(a) The international search shall cover all those technical fields, and shall be carried out on the basis of all those search files, which may contain material pertinent to the invention.

(b) Consequently, not only shall the art in which the invention is classifiable be searched but also analogous arts regardless of where classified.

(c) The question what arts are, in any given case, to be regarded as analogous shall be considered in the light of what appears to be the necessary essential function or use of the invention and not only the specific functions expressly indicated in the international application.

(d) The international search shall embrace all subject matter that is generally recognized as equivalent to the subject matter of the claimed invention for all or certain of its features, even though, in its specifics, the invention as described in the international application is different.

33.3 *Orientation of the International Search*

(a) International search shall be made on the basis of the claims, with due regard to the description and the drawings (if any) and with particular emphasis on the inventive concept towards which the claims are directed.

(b) In so far as possible and reasonable, the international search shall cover the entire subject matter to which the claims are directed or to which they might reasonably be expected to be directed after they have been amended.

Rule 36

Minimum Requirements for International Searching Authorities

36.1 *Definition of Minimum Requirements*

The minimum requirements referred to in Article 16(3)(c) shall be the following:

(i) the national Office or intergovernmental organization must have at least 100 full-time employees with sufficient technical qualifications to carry out searches;

(ii) that Office or organization must have in its possession, or have access to, at least the minimum documentation referred to in Rule 34, properly arranged for search purposes, on paper, in microform or stored on electronic media;

(iii) that Office or organization must have a staff which is capable of searching the required technical fields and which has the language facilities to understand at least those languages in which the minimum documentation referred to in Rule 34 is written or is translated.

Rule 38

Missing or Defective Abstract

38.1 *Lack of Abstract*

If the international application does not contain an abstract and the receiving Office has notified the International Searching Authority that it has invited the applicant to correct such defect, the International Searching Authority shall proceed with the international search unless and until it receives notification that the said application is considered withdrawn.

38.2 Establishment of Abstract

(a) If the international application does not contain an abstract and the International Searching Authority has not received a notification from the receiving Office to the effect that the applicant has been invited to furnish an abstract, or if the said Authority finds that the abstract does not comply with Rule 8, it shall itself establish

an abstract (in the language in which the international application is published).

(b) The applicant may, within one month from the date of mailing of the international search report, submit comments on the abstract established by the International Searching Authority. Where that Authority amends the abstract established by it, it shall notify the amendment to the International Bureau.

Rule 40

Lack of Unity of Invention (International Search)

40.1 *Invitation to Pay*

The invitation to pay additional fees provided for in Article 17(3)(a) shall specify the reasons for which the international application is not considered as complying with the requirement of unity of invention and shall indicate the amount to be paid.

40.2 *Additional Fees*

(a) The amount of the additional fee due for searching under Article 17(3)(a) shall be determined by the competent International Searching Authority.

(b) The additional fee due for searching under Article 17(3)(a) shall be payable direct to the International Searching Authority.

(c) Any applicant may pay the additional fee under protest, that is, accompanied by a reasoned statement to the effect that the international application complies with the requirement of unity of invention or that the amount of the required additional fee is excessive. Such protest shall be examined by a three-member board or other special instance of the International Searching Authority or any competent higher authority, which, to the extent that it finds the protest justified, shall order the total or partial reimbursement to the applicant of the additional fee. On the request of the applicant, the text of both the protest and the decision thereon shall be notified to the designated Offices together with the international search report. The applicant shall submit any translation thereof with the furnishing of the translation of the international application required under Article 22.

(d) The three-member board, special instance or competent higher authority, referred to in paragraph (c), shall not comprise any person who made the decision which is the subject of the protest.

(e) Where the applicant has, under paragraph (c), paid an additional fee under protest, the International Searching Authority may, after a prior review of the justification for the invitation to pay an additional fee, require that the applicant pay a fee for the examination of the protest ("protest fee"). The protest fee shall be paid within one month from the date of the notification to the applicant of the result of the review. If the protest fee is not so paid, the protest shall be considered withdrawn. The protest fee shall be refunded to the applicant where the three-member board, special instance or higher authority referred to in paragraph (c) finds that the protest was entirely justified.

40.3 *Time Limit*

The time limit provided for in Article 17(3)(a) shall be fixed, in each case, according to the circumstances of the case, by the

International Searching Authority; it shall not be shorter than 15 or 30 days, respectively, depending on whether the applicant's address is in the same country as or in a different country from that in which the International Searching Authority is located, and it shall not be longer than 45 days, from the date of the invitation.

Rule 43

The International Search Report

43.1 *Identifications*

The international search report shall identify the International Searching Authority which established it by indicating the name of such Authority, and the international application by indicating the international application number, the name of the applicant, and the international filing date.

43.2 *Dates*

The international search report shall be dated and shall indicate the date on which the international search was actually completed. It shall also indicate the filing date of any earlier application whose priority is claimed or, if the priority of more than one earlier application is claimed, the filing date of the earliest among them.

43.3 *Classification*

(a) The international search report shall contain the classification of the subject matter at least according to the International Patent Classification.

(b) Such classification shall be effected by the International Searching Authority.

43.4 *Language*

Every international search report and any declaration made under Article 17(2)(a) shall be in the language in which the international application to which it relates is published.

43.5 *Citations*

(a) The international search report shall contain the citations of the documents considered to be relevant.

(b) The method of identifying any cited document shall be regulated by the Administrative Instructions.

(c) Citations of particular relevance shall be specially indicated.

(d) Citations which are not relevant to all the claims shall be cited in relation to the claim or claims to which they are relevant.

Such notification shall also be sent to any designated Office which has waived the communication provided for in Article 20, unless such Office has also waived the notification of its designation.

(b) Such communication shall be effected promptly after the international publication of the international application and, in any event, by the end of the 19th month after the priority date. (c) The International Bureau shall send a notice to the applicant indicating the designated Offices to which the communication has been effected and the date of such communication. Such notice shall be sent on the same day as the communication. Each designated Office shall be informed, separately from the communication, about the sending and the date of mailing of the notice. The notice shall be accepted by all designated Offices as conclusive evidence that the communication has duly taken place on the date specified in the notice.

(d) Each designated Office shall, when it so requires, receive the international search reports and the declarations referred to in Article 17(2)(a) also in the translation referred to in Rule 45.1.

(e) Where any designated Office has waived the requirement provided under Article 20, the copies of the documents which otherwise would have been sent to that Office shall, at the request of that Office or the applicant, be sent to the applicant at the time of the notice referred to in paragraph (c).

47.2 *Copies*

(a) The copies required for communication shall be prepared by the International Bureau.

(b) They shall be on sheets of A4 size.

47.3 *Languages*

The international application communicated under Article 20 shall be in the language in which it is published provided that if that language is different from the language in which it was filed it shall, on the request of the designated Office, be communicated in either or both of these languages.

Rule 48

48.1 *Form*

(a) The international application shall be published in the form of a pamphlet.

(b) The particulars regarding the form of the pamphlet and the method of reproduction shall be governed by the Administrative Instructions.

(vi) any statement filed under Article 19(1), unless the International Bureau finds that the statement does not comply with the provisions of Rule 46.4,

(vii) any request for rectification referred to in the third

sentence of Rule 91.1(f),

(viii) any indications in relation to a deposited microorganism furnished under Rule 13*bis* separately from the description, together with an indication of the date on which the International Bureau received such indications.

(b) Subject to paragraph (c), the front page shall include:

(i) data taken from the request sheet and such other data as are prescribed by the Administrative Instructions,

(ii) a figure or figures where the international application contains drawings, unless Rule 8.2(b) applies,

(iii) the abstract; if the abstract is both in English and in another language, the English text shall appear first.

(c) Where a declaration under Article 17(2)(a) has issued, the front page shall conspicuously refer to that fact and need include neither a drawing nor an abstract.

(d) The figure or figures referred to in paragraph (b)(ii) shall be selected as provided in Rule 8.2. Reproduction of such figure or figures on the front page may be in a reduced form.

(e) If there is not enough room on the front page for the totality of the abstract referred to in paragraph (b)(iii), the said abstract shall appear on the back of the front page. The same shall apply to the translation of the abstract when such translation is required to be published under Rule 48.3(c).

(f) If the claims have been amended under Article 19, the publication shall contain either the full text of the claims both as filed and as amended or the full text of the claims as filed and specify the amendments. Any statement referred to in Article 19(1) shall be included as well, unless the International Bureau finds that the statement does not comply with the provisions of Rule 46.4. The date of receipt of the amended claims by the International Bureau shall be indicated.

(g) If, at the time of the completion of the technical preparations for international publication, the international search report is not yet available (for example, because of publication on the request of the applicant as provided in Articles 21(2)(b) and 64(3)(c)(i)), the pamphlet shall contain, in place of the international search report, an indication to the effect that that report was not available and that either the pamphlet (then also including the international search report) will be republished or the international search report (when it becomes available) will be separately published.

(h) If, at the time of the completion of the technical preparations for international publication, the time limit for amending the claims under Article 19 has not expired, the pamphlet shall refer to that fact and indicate that, should the claims be amended under Article 19, then, promptly after such amendments, either the pamphlet (containing the claims as amended) will be republished or a statement reflecting all the amendments will be published. In the latter case, at least the front page and the claims shall be republished and, if a statement under Article 19(1) has been filed, that statement shall be published as well, unless the International Bureau finds that the statement does not comply with the provisions of Rule 46.4.

(i) The Administrative Instructions shall determine the cases in which the various alternatives referred to in paragraphs (g) and (h) shall apply. Such determination shall depend on the volume and

complexity of the amendments and/or the volume of the international application and the cost factors.

48.3 *Languages*

(a) If the international application is filed in English, French, German, Japanese, Russian or Spanish, that application shall be published in the language in which it was filed.

(b) If the international application is filed in a language other than English, French, German, Japanese, Russian or Spanish, that application shall be published in English translation. The translation shall be prepared under the responsibility of the International Searching Authority, which shall be obliged to have it ready in time to permit international publication by the prescribed date, or, where Article 64(3)(b) applies, to permit the communication under Article 20 by the end of the 19th month after the priority date. Notwithstanding Rule 16.1(a), the International Searching Authority may charge a fee for the translation to the applicant. The International Searching Authority shall give the applicant an opportunity to comment on the draft translation. The International Searching Authority shall fix a time limit reasonable under the circumstances of the case for such comments. If there is no time to take the comments of the applicant into account before the translation is communicated or if there is a difference of opinion between the applicant and the said Authority as to the correct translation, the applicant may send a copy of his comments, or what remains of them, to the International Bureau and each designated Office to which the translation was communicated. The International Bureau shall publish the essence of the comments together with the translation of the International Searching Authority or subsequently to the publication of such translation.

(c) If the international application is published in a language other than English, the international search report to the extent that it is published under Rule 48.2(a)(v), or the declaration referred to in Article 17(2)(a), the title of the invention, the abstract and any text matter pertaining to the figure or figures accompanying the abstract shall be published both in that language and in English. The translations shall be prepared under the responsibility of the International Bureau.

48.4 *Earlier Publication on the Applicant's Request*

(a) Where the applicant asks for publication under Articles 21(2)(b) and 64(3)(c)(i) and the international search report, or the declaration referred to in Article 17(2)(a), is not yet available for publication together with the international application, the International Bureau shall collect a special publication fee whose amount shall be fixed in the Administrative Instructions.

(b) Publication under Articles 21(2)(b) and 64(3)(c)(i) shall be effected by the International Bureau promptly after the applicant has asked for it and, where a special fee is due under paragraph (a), after receipt of such fee.

48.5 *Notification of National Publication*

Where the publication of the international application by the International Bureau is governed by Article 64(3)(c)(ii), the national Office concerned shall, promptly after effecting the national publication referred to in the said provision, notify the International Bureau of the fact of such national publication.

(b) *[Deleted]*

(c) If the international application, the designation of any designated State or the priority claim is withdrawn under Rule 90*bis* after the technical preparations for international publication have been completed, notice of the withdrawal shall be published in the Gazette.

(i) the languages from which and the language into which it requires translation,

(ii) the amount of the national fee.

(a-*bis*) Any Contracting State not requiring the furnishing, under Article 22, by the applicant of a copy of the international application (even though the communication of the copy of the international application by the International Bureau under Rule 47 has not taken place by the expiration of the time limit applicable under Article 22) shall notify the International Bureau accordingly.

(a-*ter*) Any Contracting State which, pursuant to Article 24(2), maintains, if it is a designated State, the effect provided for in Article 11(3) even though a copy of the international application is not furnished by the applicant by the expiration of the time limit applicable under Article 22 shall notify the International Bureau accordingly.

(b) Any notification received by the International Bureau under paragraphs (a), (a-*bis*) or (a-*ter*) shall be promptly published by the International Bureau in the Gazette.

(c) If the requirements under paragraph (a) change later, such changes shall be notified by the Contracting State to the International Bureau and that Bureau shall promptly publish the notification in the Gazette. If the change means that translation is required into a language which, before the change, was not required, such change shall be effective only with respect to international applications filed later than two months after the publication of the notification in the Gazette. Otherwise, the effective date of any change shall be determined by the Contracting State.

49.2 *Languages*

The language into which translation may be required must be an official language of the designated Office. If there are several of such languages, no translation may be required if the international application is in one of them. If there are several official languages and a translation must be furnished, the applicant may choose any of those languages. Notwithstanding the foregoing provisions of this paragraph, if there are several official languages but the national law prescribes the use of one such language for foreigners, a translation

No applicant shall be required to use a national form when performing the acts referred to in Article 22.

49.5 *Contents of and Physical Requirements for the Translation*

(a) For the purposes of Article 22, the translation of the international application shall contain the description, the claims, any text matter of the drawings and the abstract. If required by the designated Office, the translation shall also, subject to paragraphs (b), (c-*bis*) and (e),

(i) contain the request,

(ii) if the claims have been amended under Article 19, contain both the claims as filed and the claims as amended, and

(iii) be accompanied by a copy of the drawings.

(b) Any designated Office requiring the furnishing of a translation of the request shall furnish copies of the request form in the language of the translation free of charge to the applicants. The form and contents of the request form in the language of the translation shall not be different from those of the request under Rules 3 and 4; in particular, the request form in the language of the translation shall not ask for any information that is not in the request as filed. The use of the request form in the language of the translation shall be optional.

(c) Where the applicant did not furnish a translation of any statement made under Article 19(1), the designated Office may disregard such statement.

(c-*bis*) Where the applicant furnishes, to a designated Office which requires under paragraph (a)(ii) a translation of both the claims as filed and the claims as amended, only one of the required two translations, the designated Office may disregard the claims of which a translation has not been furnished or invite the applicant to furnish the missing translation within a time limit which shall be reasonable under the circumstances and shall be fixed in the invitation. Where the designated Office chooses to invite the applicant to furnish the missing translation and the latter is not furnished within the time limit fixed in the invitation, the designated Office may disregard those claims of which a translation has not been furnished or consider the international application withdrawn.

(d) If any drawing contains text matter, the translation of that text matter shall be furnished either in the form of a copy of the original drawing with the translation pasted on the original text matter or in the form of a drawing executed anew.

(e) Any designated Office requiring under paragraph (a) the furnishing of a copy of the drawings shall, where the applicant failed to furnish such copy within the time limit applicable under Article 22, invite the applicant to furnish such copy within a time limit which shall be reasonable under the circumstances and shall be fixed in the

(f) The expression "Fig." does not require translation into any language.

(h) Where the applicant did not furnish a translation of the abstract or of any indication furnished under Rule 13*bis*.4, the designated Office shall invite the applicant to furnish such translation, if it deems it to be necessary, within a time limit which shall be reasonable under the circumstances and shall be fixed in the invitation.

(i) Information on any requirement and practice of designated Offices under the second sentence of paragraph (a) shall be published by the International Bureau in the Gazette.

(j) No designated Office shall require that the translation of the international application comply with physical requirements other than those prescribed for the international application as filed.

(k) Where a title has been established by the International Searching Authority pursuant to Rule 37.2, the translation shall contain the title as established by that Authority.

(l) If, on July 12, 1991, paragraph (c-*bis*) or paragraph (k) is not compatible with the national law applied by the designated Office, the paragraph concerned shall not apply to that designated Office for as long as it continues not to be compatible with that law, provided that the said Office informs the International Bureau accordingly by December 31, 1991. (a) The election of States subsequent to the submission of the demand ("later election") shall be effected by a notice submitted to the International Bureau. The notice shall identify the international application and the demand, and shall include an indication as referred to in Rule 53.7(b)(ii).

(b) Subject to paragraph (c), the notice referred to in paragraph (a) shall be signed by the applicant for the elected States concerned or, if there is more than one applicant for those States, by all of them.

(c) Where two or more applicants file a notice effecting a later election of a State whose national law requires that national applications be filed by the inventor and where an applicant for that elected State who is an inventor refused to sign the notice or could not be found or reached after diligent effort, the notice need not be signed by that applicant ("the applicant concerned") if it is signed by at least one applicant and

(i) a statement is furnished explaining, to the satisfaction of the International Bureau, the lack of signature of the applicant concerned, or

(ii) the applicant concerned did not sign the request but the requirements of Rule 4.15(b) were complied with, or did not sign the demand but the requirements of Rule 53.8(b) were complied with.

(d) An applicant for a State elected by a later election need not have been indicated as an applicant in the demand.

(e) If a notice effecting a later election is submitted after the expiration of 19 months from the priority date, the International Bureau shall notify the applicant that the election does not have the effect provided for under Article 39(1)(a) and that the acts referred to in Article 22 must be performed in respect of the elected Office concerned within the time limit applicable under Article 22.

(f) If, notwithstanding paragraph (a), a notice effecting a later election is submitted by the applicant to the International Preliminary Examining Authority rather than the International Bureau, that Authority shall mark the date of receipt on the notice and transmit it promptly to the International Bureau. The notice shall be considered to have been submitted to the International Bureau on the date marked.

56.2 *Identification of the International Application*

The international application shall be identified as provided in Rule 53.6.

The notice effecting the later election shall preferably be worded as follows: "In relation to the international application filed with ... on ... under No. ... by ...(applicant) (and the demand for international preliminary examination submitted on ... to ...), the undersigned elects the following additional State(s) under Article 31 of the Patent Cooperation Treaty: ..."

56.5 *Language of Later Elections*

The later election shall be in the language of the demand.

(e) Where the exchange rate between Swiss currency and any prescribed currency becomes different from the exchange rate last applied, the Director General shall establish the new amount in the prescribed currency according to directives given by the Assembly. The newly established amount shall become applicable two months after its publication in the Gazette, provided that the interested International Preliminary Examining Authority and the Director General may agree on a date falling during the said two-month period in which case the said amount shall become applicable for that Authority from that date.

(b) If the applicant complies with the invitation within the one-month time limit, the handling fee shall be considered as if it had been paid on the due date.

(c) If the applicant does not comply with the invitation within the prescribed time limit, the demand shall be considered as if it had not been submitted.

57.5 *[Deleted]*

57.6 *Refund*

As to demands made under Article 31(2)(b), the Assembly, in specifying the International Preliminary Examining Authority competent for international applications filed with a national Office which is an International Preliminary Examining Authority, shall give preference to that Authority; if the national Office is not an International Preliminary Examining Authority, the Assembly shall give preference to the International Preliminary Examining Authority recommended by that Office.

Rule 60

Certain Defects in the Demand or Elections

(a) If the demand does not comply with the requirements specified in Rules 53.1, 53.2(a)(i) to (iv), 53.2(b), 53.3 to 53.8 and 55, the International Preliminary Examining Authority shall invite the applicant to correct the defects within a time limit which shall be reasonable under the circumstances. That time limit shall not be less than one month from the date of the invitation. It may be extended by the International Preliminary Examining Authority at any time before a decision is taken.

(b) If the applicant complies with the invitation within the time limit under paragraph (a), the demand shall be considered as if it had been received on the actual filing date, provided that the demand as submitted contained at least one election and permitted the international application to be identified; otherwise, the demand shall be considered as if it had been received on the date on which the International Preliminary Examining Authority receives the correction.

(e) If the defect is noticed by the International Bureau, it shall bring the defect to the attention of the International Preliminary Examining Authority, which shall then proceed as provided in paragraphs (a) to (d).

(f) If the demand does not contain a statement concerning amendments, the International Preliminary Examining Authority shall proceed as provided for in Rules 66.1 and 69.1(a) or (b).

60.2 *Defects in Later Elections*

(a) If the notice effecting a later election does not comply with the requirements of Rule 56, the International Bureau shall invite the applicant to correct the defects within a time limit which shall be reasonable under the circumstances. (c) Subject to paragraph (d), if the applicant does not comply with the invitation within the time limit under paragraph (a), the notice shall be considered as if it had not been submitted.

(d) Where, in respect of an applicant for a certain elected State, the signature required under Rule 56.1(b) and (c) or the name or address is lacking after the expiration of the time limit under paragraph (a), the later election of that State shall be considered as if it had not been made.

election has been considered under Rule 60.1(d) as if it had not been made, the International Preliminary Examining Authority shall notify the applicant and the International Bureau accordingly.

(c) The International Bureau shall promptly notify the applicant of the receipt, and the date of receipt, of any notice effecting a later election. That date shall be the actual date of receipt by the International Bureau or, where applicable, the date referred to in Rule 56.1(f) or 60.2(b). Where the notice has been considered under Rule 60.2(c) as if it had not been submitted or where a later election has been considered under Rule 60.2(d) as if it had not been made, the International Bureau shall notify the applicant accordingly.

61.2 *Notification to the Elected Offices*

(a) The notification provided for in Article 31(7) shall be effected by the International Bureau.

(b) The notification shall indicate the number and filing date of the international application, the name of the applicant, the filing date of the application whose priority is claimed (where priority is claimed), the date of receipt by the International Preliminary Examining Authority of the demand, and - in the case of a later election - the date of receipt of the notice effecting the later election. The latter date shall be the actual date of receipt by the International Bureau or, where applicable, the date referred to in Rule 56.1(f) or 60.2(b).

(c) The notification shall be sent to the elected Office together with the communication provided for in Article 20. Elections effected after such communication shall be notified promptly after they have been made.

(d) Where the applicant makes an express request to an elected Office under Article 40(2) before the communication provided for in Article 20 has taken place, the International Bureau shall, upon request of the applicant or the elected Office, promptly effect that communication to that Office.

61.3 *Information for the Applicant*

The International Bureau shall inform the applicant in writing of the notification referred to in Rule 61.2 and of the elected Offices notified under Article 31(7).

61.4 *Publication in the Gazette*

Where a demand has been filed prior to the expiration of the 19th month from the priority date, the International Bureau shall publish a notice of that fact in the Gazette promptly after the filing of the demand, but not before the international publication of the international application. The notice shall indicate all designated States bound by Chapter II which have not been elected.

Rule 62

Copy of Amendments Under Article 19 for the International Preliminary Examining Authority

62.1 *Amendments Made before the Demand is Filed*

Upon receipt of a demand from the International Preliminary Examining Authority, the International Bureau shall promptly transmit a copy of any amendments under Article 19 to that Authority, unless that Authority has indicated that it has already received such a copy.

VOL 1139 ISS 3 JE 16 19 92 UMI

62.2 *Amendments Made after the Demand is Filed*

(a) If, at the time of filing any amendments under Article 19, a demand has already been submitted, the applicant shall preferably, at the same time as he files the amendments with the International Bureau, also file a copy of such amendments with the International Preliminary Examining Authority. In any case, the International Bureau shall promptly transmit a copy of such amendments to that Authority.

Rule 64

Prior Art for International Preliminary Examination

64.1 *Prior Art*

(a) For the purposes of Article 33(2) and (3), everything made available to the public anywhere in the world by means of written disclosure (including drawings and other illustrations) shall be considered prior art provided that such making available occurred prior to the relevant date.

(b) For the purposes of paragraph (a), the relevant date will be:

(i) subject to item (ii), the international filing date of the international application under international preliminary examination;

(ii) where the international application under international preliminary examination validly claims the priority of an earlier application, the filing date of such earlier application.

64.2 *Non-Written Disclosures*

In cases where the making available to the public occurred by means of an oral disclosure, use, exhibition or other non-written means ("non-written disclosure") before the relevant date as defined in Rule 64.1(b) and the date of such non-written disclosure is indicated in a written disclosure which has been made available to the public on a date which is the same as, or later than, the relevant date, the non-written disclosure shall not be considered part of the prior art for the purposes of Article 33(2) and (3). Nevertheless, the international preliminary examination report shall call attention to such non-written disclosure in the manner provided for in Rule 70.9.

64.3 *Certain Published Documents*

In cases where any application or any patent which would constitute prior art for the purposes of Article 33(2) and (3) had it been published prior to the relevant date referred to in Rule 64.1 was published on a date which is the same as, or later than, the relevant date but was filed earlier than the relevant date or claimed the priority of an earlier application which had been filed prior to the relevant date, such published application or patent shall not be considered part of the prior art for the purposes of Article 33(2) and (3). Nevertheless, the international preliminary examination report shall call attention to such application or patent in the manner provided for in Rule 70.10.

Rule 66

Procedure before the International Preliminary Examining Authority

66.1 *Basis of the International Preliminary Examination*

(a) Subject to paragraphs (b) to (d), the international preliminary examination shall be based on the international application as filed.

(b) The applicant may submit amendments under Article 34 at the time of filing the demand or, subject to Rule 66.4*bis*, until the international preliminary examination report is established.

(c) Any amendments under Article 19 made before the demand was filed shall be taken into account for the purposes of the international preliminary examination unless superseded, or considered as reversed, by an amendment under Article 34.

(d) Any amendments under Article 19 made after the demand was filed and any amendments under Article 34 submitted to the International Preliminary Examining Authority shall, subject to Rule 66.4*bis*, be taken into account for the purposes of the international preliminary examination.

(e) Claims relating to inventions in respect of which no international search report has been established need not be the subject of international preliminary examination.

66.2 *First Written Opinion of the International Preliminary Examining Authority*

(a) If the International Preliminary Examining Authority

(i) considers that any of the situations referred to in Article 34(4) exists,

(ii) considers that the international preliminary examination report should be negative in respect of any of the claims because the invention claimed therein does not appear to be novel, does not appear to involve an inventive step (does not appear to be non-obvious), or does not appear to be industrially applicable,

(iii) notices that there is some defect in the form or contents of the international application under the Treaty or these Regulations,

(iv) considers that any amendment goes beyond the disclosure in the international application as filed,

(v) wishes to accompany the international preliminary examination report by observations on the clarity of the claims, the description, and the drawings, or the question whether the claims are fully supported by the description,

(vi) considers that a claim relates to an invention in respect of which no international search report has been established and has decided not to carry out the international preliminary examination in respect of that claim, or

(vii) considers that a nucleotide and/or amino acid sequence listing is not available to it in such a form that a meaningful international preliminary examination can be carried out,

the said Authority shall notify the applicant accordingly in writing. Where the national law of the national Office acting as International

Preliminary Examining Authority does not allow multiple dependent claims to be drafted in a manner different from that provided for in the second and third sentences of Rule 6.4(a), the International Preliminary Examining Authority may, in case of failure to use that manner of claiming, apply Article 34(4)(b). In such case, it shall notify the applicant accordingly in writing.

(b) The notification shall fully state the reasons for the opinion of the International Preliminary Examining Authority.

(c) The notification shall invite the applicant to submit a written reply together, where appropriate, with amendments.

(d) The notification shall fix a time limit for the reply. The time limit shall be reasonable under the circumstances. It shall normally be two months after the date of notification. In no case shall it be shorter than one month after the said date. It shall be at least two months after the said date where the international search report is transmitted at the same time as the notification. It shall not be more than three months after the said date but may be extended if the applicant so requests before its expiration.

66.3 *Formal Response to the International Preliminary Examining Authority*

(a) The applicant may respond to the invitation referred to in Rule 66.2(c) of the International Preliminary Examining Authority by making amendments or - if he disagrees with the opinion of that Authority - by submitting arguments, as the case may be, or do both.

(b) Any response shall be submitted directly to the International Preliminary Examining Authority.

66.4 *Additional Opportunity for Submitting Amendments or Arguments*

(a) If the International Preliminary Examining Authority wishes to issue one or more additional written opinions, it may do so, and Rules 66.2 and 66.3 shall apply.

(b) On the request of the applicant, the International Preliminary Examining Authority may give him one or more additional opportunities to submit amendments or arguments.

66.4*bis* *Consideration of Amendments and Arguments*

Amendments or arguments need not be taken into account by the International Preliminary Examining Authority for the purposes of a written opinion or the international preliminary examination report if they are received after that Authority has begun to draw up that opinion or report.

66.5 *Amendment*

Any change, other than the rectification of obvious errors, in the claims, the description, or the drawings, including cancellation of claims, omission of passages in the description, or omission of certain drawings, shall be considered an amendment.

66.6 *Informal Communications with the Applicant*

The International Preliminary Examining Authority may, at any time, communicate informally, over the telephone, in writing, or through personal interviews, with the applicant. The said Authority shall, at its discretion, decide whether it wishes to grant more than one personal interview if so requested by the applicant, or whether it wishes to reply to any informal written communication from the applicant.

66.7 *Priority Document*

(a) If the International Preliminary Examining Authority needs a copy of the application whose priority is claimed in the international application, the International Bureau shall, on request, promptly furnish such copy. If that copy is not furnished to the International Preliminary Examining Authority because the applicant failed to comply with the requirements of Rule 17.1, the international preliminary examination report may be established as if the priority had not been claimed.

(b) If the application whose priority is claimed in the international application is in a language other than the language or one of the languages of the International Preliminary Examining Authority, that Authority may invite the applicant to furnish a translation in the said language or one of the said languages within two months from the date of the invitation. If the translation is not furnished within that time limit, the international preliminary examination report may be established as if the priority had not been claimed.

66.8 *Form of Amendments*

(a) The applicant shall be required to submit a replacement sheet for every sheet of the international application which, on account of an amendment, differs from the sheet previously filed. The letter accompanying the replacement sheets shall draw attention to the differences between the replaced sheets and the replacement sheets. Where the amendment consists in the deletion of passages or in minor alterations or additions, it may be made on a copy of the relevant sheet of the international application, provided that the clarity and direct reproducibility of that sheet are not adversely affected. To the extent that any amendment results in the cancellation of an entire sheet, that amendment shall be communicated in a letter.

(b) *[Deleted]*

66.9 Language of Amendments

If the international application has been filed in a language other than the language in which it is published, any amendment, as well as any letter referred to in Rule *66.8(a), shall be s*ubmitted in the language of publication.

Rule 68

Lack of Unity of Invention
(International Preliminary Examination)

68.1 *No Invitation to Restrict or Pay*

Where the International Preliminary Examining Authority finds that the requirement of unity of invention is not complied with and chooses not to invite the applicant to restrict the claims or to pay additional fees, it shall proceed with the international preliminary examination, subject to Article 34(4)(b) and Rule 66.1(e), in respect of the entire international application, but shall indicate, in any written opinion and in the international preliminary examination report, that it considers that the requirement of unity of invention is not fulfilled and it shall specify the reasons therefor.

VOL 1139 ISS 3 JE 16 1992 UMI

68.2 *Invitation to Restrict or Pay*

Where the International Preliminary Examining Authority finds that the requirement of unity of invention is not complied with and chooses to invite the applicant, at his option, to restrict the claims or to pay additional fees, it shall specify at least one possibility of restriction which, in the opinion of the International Preliminary Examining Authority, would be in compliance with the applicable requirement, and shall specify the amount of the additional fees and the reasons for which the international application is not considered as complying with the requirement of unity of invention. It shall, at the same time, fix a time limit, with regard to the circumstances of the case, for complying with the invitation; such time limit shall not be shorter than one month, and it shall not be longer than two months, from the date of the invitation.

68.3 *Additional Fees*

(a) The amount of the additional fee due for international preliminary examination under Article 34(3)(a) shall be determined by the competent International Preliminary Examining Authority.

(b) The additional fee due for international preliminary examination under Article 34(3)(a) shall be payable direct to the International Preliminary Examining Authority.

(c) Any applicant may pay the additional fee under protest, that is, accompanied by a reasoned statement to the effect that the international application complies with the requirement of unity of invention or that the amount of the required additional fee is excessive. Such protest shall be examined by a three-member board or other special instance of the International Preliminary Examining Authority, or any competent higher authority, which, to the extent that it finds the protest justified, shall order the total or partial reimbursement to the applicant of the additional fee. On the request of the applicant, the text of both the protest and the decision thereon shall be notified to the elected Offices as an annex to the international preliminary examination report.

(d) The three-member board, special instance or competent higher authority, referred to in paragraph (c), shall not comprise any person who made the decision which is the subject of the protest.

(e) Where the applicant has, under paragraph (c), paid an additional fee under protest, the International Preliminary Examining Authority may, after a prior review of the justification for the invitation to pay an additional fee, require that the applicant pay a fee for the examination of the protest ("protest fee"). The protest fee shall be paid within one month from the date of the notification to the applicant of the result of the review. If the protest fee is not so paid, the protest shall be considered withdrawn. The protest fee shall be refunded to the applicant where the three-member board, special instance or higher authority referred to in paragraph (c) finds that the protest was entirely justified.

68.4 *Procedure in the Case of Insufficient Restriction of the Claims*

If the applicant restricts the claims but not sufficiently to comply with the requirement of unity of invention, the International Preliminary Examining Authority shall proceed as provided in Article 34(3)(c).

68.5 *Main Invention*

In case of doubt which invention is the main invention for the

purposes of Article 34(3)(c), the invention first mentioned in the claims shall be considered the main invention.

Rule 69

Start of and Time Limit for International Preliminary Examination

69.1 *Start of International Preliminary Examination*

(a) Subject to paragraphs (b) to (e), the International Preliminary Examining Authority shall start the international preliminary examination when it is in possession both of the demand and of either the international search report or a notice of the declaration by the International Searching Authority under Article 17(2)(a) that no international search report will be established.

(b) If the competent International Preliminary Examining Authority is part of the same national Office or intergovernmental organization as the competent International Searching Authority, the international preliminary examination may, if the International Preliminary Examining Authority so wishes and subject to paragraph (d), start at the same time as the international search.

(c) Where the statement concerning amendments contains an indication that amendments under Article 19 are to be taken into account (Rule 53.9(a)(i)), the International Preliminary Examining Authority shall not start the international preliminary examination before it has received a copy of the amendments concerned.

(d) Where the statement concerning amendments contains an indication that the start of the international preliminary examination is to be postponed (Rule 53.9(b)), the International Preliminary Examining Authority shall not start the international preliminary examination before

(i) it has received a copy of any amendments made under Article 19,

(ii) it has received a notice from the applicant that he does not wish to make amendments under Article 19, or

(iii) the expiration of 20 months from the priority date,

whichever occurs first.

(e) Where the statement concerning amendments contains an indication that amendments under Article 34 are submitted with the demand (Rule 53.9(c)) but no such amendments are, in fact, submitted, the International Preliminary Examining Authority shall not start the international preliminary examination before it has received the amendments or before the time limit fixed in the invitation referred to in Rule 60.1(g) has expired, whichever occurs first.

69.2 *Time Limit for International Preliminary Examination*

The time limit for establishing the international preliminary examination report shall be:

(i) 28 months from the priority date if the demand was filed prior to the expiration of 19 months from the priority date;

(ii) nine months from the start of the international preliminary examination if the demand was filed after the expiration of 19 months from the priority date.

Rule 70

The International Preliminary Examination Report

70.1 *Definition*

For the purposes of this Rule, "report" shall mean international preliminary examination report.

70.2 *Basis of the Report*

(a) If the claims have been amended, the report shall issue on the claims as amended.

(b) If, pursuant to Rule 66.7(a) or (b), the report is established as if the priority had not been claimed, the report shall so indicate.

(c) If the International Preliminary Examining Authority considers that any amendment goes beyond the disclosure in the international application as filed, the report shall be established as if such amendment had not been made, and the report shall so indicate. It shall also indicate the reasons why it considers that the amendment goes beyond the said disclosure.

(d) Where claims relate to inventions in respect of which no international search report has been established and have therefore not been the subject of international preliminary examination, the international preliminary examination report shall so indicate.

70.3 *Identifications*

The report shall identify the International Preliminary Examining Authority which established it by indicating the name of such Authority, and the international application by indicating the international application number, the name of the applicant, and the international filing date.

70.4 *Dates*

The report shall indicate:

(i) the date on which the demand was submitted, and

(ii) the date of the report; that date shall be the date on which the report is completed.

70.5 *Classification*

(a) The report shall repeat the classification given under Rule 43.3 if the International Preliminary Examining Authority agrees with such classification.

(b) Otherwise, the International Preliminary Examining Authority shall indicate in the report the classification, at least according to the International Patent Classification, which it considers correct.

70.6 *Statement under Article 35(2)*

(a) The statement referred to in Article 35(2) shall consist of the words "YES" or "NO," or their equivalent in the language of the report, or some appropriate sign provided for in the Administrative Instructions, and shall be accompanied by the citations, explanations and observations, if any, referred to in the last sentence of Article 35(2).

(b) If any of the three criteria referred to in Article 35(2) (that is, novelty, inventive step (non-obviousness), industrial applicability) is not satisfied, the statement shall be negative. If, in such a case, any of the criteria, taken separately, is satisfied, the report shall specify the criterion or criteria so satisfied.

70.7 *Citations under Article 35(2)*

(a) The report shall cite the documents considered to be relevant for supporting the statements made under Article 35(2).

(b) The provisions of Rule 43.5(b) and (e) shall apply also to the report.

70.8 *Explanations under Article 35(2)*

The Administrative Instructions shall contain guidelines for cases in which the explanations referred to in Article 35(2) should or should not be given and the form of such explanations. Such guidelines shall be based on the following principles:

(i) explanations shall be given whenever the statement in relation to any claim is negative;

(ii) explanations shall be given whenever the statement is positive unless the reason for citing any document is easy to imagine on the basis of consultation of the cited document;

(iii) generally, explanations shall be given if the case provided for in the last sentence of Rule 70.6(b) obtains.

70.9 *Non-Written Disclosures*

Any non-written disclosure referred to in the report by virtue of Rule 64.2 shall be mentioned by indicating its kind, the date on which the written disclosure referring to the non-written disclosure was made available to the public, and the date on which the non-written disclosure occurred in public.

70.10 *Certain Published Documents*

Any published application or any patent referred to in the report by virtue of Rule 64.3 shall be mentioned as such and shall be accompanied by an indication of its date of publication, of its filing date, and its claimed priority date (if any). In respect of the priority date of any such document, the report may indicate that, in the opinion of the International Preliminary Examining Authority, such date has not been validly claimed.

70.11 *Mention of Amendments*

If, before the International Preliminary Examining Authority, amendments have been made, this fact shall be indicated in the report. Where any amendment has resulted in the cancellation of an entire sheet, this fact shall also be specified in the report.

70.12 *Mention of Certain Defects and Other Matters*

If the International Preliminary Examining Authority considers that, at the time it prepares the report:

(i) the international application contains any of the defects referred to in Rule 66.2(a)(iii), it shall include this opinion and the reasons therefor in the report;

80.4 *Local Dates*

(a) The date which is taken into consideration as the starting date of the computation of any period shall be the date which prevails in the locality at the time when the relevant event occurred.

(b) The date on which any period expires shall be the date which prevails in the locality in which the required document must be filed or the required fee must be paid.

80.5 *Expiration on a Non-Working Day*

If the expiration of any period during which any document or fee must reach a national Office or intergovernmental organization falls on a day on which such Office or organization is not open to the public for the purposes of the transaction of official business, or on which ordinary mail is not delivered in the locality in which such Office or organization is situated, the period shall expire on the next subsequent day on which neither of the said two circumstances exists.

80.6 *Date of Documents*

(a) Where a period starts on the day of the date of a document or letter emanating from a national Office or intergovernmental organization, any interested party may prove that the said document or letter was mailed on a day later than the date it bears, in which case the date of actual mailing shall, for the purposes of computing the period, be considered to be the date on which the period starts. Irrespective of the date on which such a document or letter was mailed, if the applicant offers to the national Office or intergovernmental organization evidence which satisfies the national Office or intergovernmental organization that the document or letter was received more than seven days after the date it bears, the national Office or intergovernmental organization shall treat the period starting from the date of the document or letter as expiring later by an additional number of days which is equal to the number of days which the document or letter was received later than seven days after the date it bears.

Except in cases where surface mail normally arrives at its destination within two days of mailing, or where no airmail service is available, such evidence may be offered only if the mailing was by airmail. In any case, evidence may be offered only if the mailing was by mail registered by the postal authorities.

(b) If the mailing, in accordance with paragraph (a), of a document or letter is proven to the satisfaction of the national Office or intergovernmental organization which is the addressee, delay in arrival shall be excused, or, if the document or letter is lost in the mail, substitution for it of a new copy shall be permitted, provided that the interested party proves to the satisfaction of the said Office or organization that the document or letter offered in substitution is identical with the document or letter lost.

(c) In the cases provided for in paragraph (b), evidence of mailing within the prescribed time limit, and, where the document or letter was lost, the substitute document or letter as well as the evidence concerning its identity with the document or letter lost shall be submitted within one month after the date on which the interested party noticed - or with due diligence should have noticed - the delay or the loss, and in no case later than six months after the expiration of the time limit applicable in the given case.

(d) Any national Office or intergovernmental organization which has notified the International Bureau that it will do so shall, where a delivery service other than the postal authorities is used to mail a document or letter, apply the provisions of paragraphs (a) to (c) as if the delivery service was a postal authority. In such a case, the last sentence of paragraph (a) shall not apply but evidence may be offered only if details of the mailing were recorded by the delivery service at the time of mailing. The notification may contain an indication that it applies only to mailings using specified delivery services or delivery services which satisfy specified criteria. The International Bureau shall publish the information so notified in the Gazette.

(e) Any national Office or intergovernmental organization may proceed under paragraph (d):

(i) even if, where applicable, the delivery service used was not one of those specified, or did not satisfy the criteria specified, in the relevant notification under paragraph (d), or

(b) If such circumstances are proven to the satisfaction of the national Office or intergovernmental organization which is the addressee, delay in arrival shall be excused, provided that the interested party proves to the satisfaction of the said Office or organization that he effected the mailing within five days after the mail service was resumed. (i) waive the requirement under paragraph (d), or

(ii) invite the applicant to furnish, within a time limit which shall be reasonable under the circumstances and shall be fixed in the invitation, the original of the document transmitted,

provided that, where the document transmitted contains defects, or shows that the original contains defects, in respect of which the national Office or intergovernmental organization may issue an invitation to correct, that Office or organization may issue such an invitation in addition to, or instead of, proceeding under item (i) or (ii).

(f) Where the furnishing of the original of a document is not required under paragraph (d) but the national Office or intergovernmental organization considers it necessary to receive the original of the said document, it may issue an invitation as provided for under paragraph (e)(ii).

(g) If the applicant fails to comply with an invitation under paragraph (e)(ii) or (f):

(i) where the document concerned is the international application, the latter shall be considered withdrawn and the receiving Office shall so declare;

Notice Regarding the Above Changes to the Regulations

These amendments include substantial changes in practices, procedures and forms and apply to all International Applications filed on or after July 1, 1992 and to the extent applicable to those applications pending on July 1, 1992. For example, applications pending before July 1 but having a demand filed after July 1 will be subject to the regulations which go into effect on that date.

Copies of those new forms which are to be used to file a new application under Chapter I or to file a Demand for entry into Chapter II on or after July 1, 1992 are available from:

Comissioner of Patents and Trademarks
Box PCT
Washington, D.C. 20231

or by calling 703-308-4129.

The U.S. Patent and Trademark Office is in the process of amending the Code of Federal Regulations to reflect these changes. These proposed rules will be published for comment in the near future.

Notice Regarding the International Division of the United States Patent and Trademark Office

The Office is taking a series of aggressive steps to address difficulties being experienced in its International Division and PCT operations in general. Many PCT operational problems have been identified in the past few years, and additional resources and action steps have been programmed to address these problems. While many issues have been resolved in part, our PCT operations need to be further strengthened to address the increasing workloads and enhance the effectiveness of the Office's International Division relative to its obligations under the Patent Cooperation Treaty. To this end, a special Task Force has been established to fully re-evaluate the Office's PCT operations.

The International Division is now under direct supervision of the Task Force. The Task Force has instituted the beginnings of an automated monitoring system in the Receiving Office; assigned a group of examining professionals to the International Division to address numerous issues including backlogs, training needs, and workflow analysis; and initiated a series of application file inventory and organizational tasks.

The Task Force is also in the process of making a series of recommendations to improve PCT operations. These recommendations, which will result from a full review of PCT procedures and processes, as well as a review of the organizational structure of the International Division, will include measures intended to strengthen management structure and direction, enhance automation monitoring systems throughout the International Division, and improve communications with the patent community and the International Bureau.

Reference Collections of U.S. Patents and Trademarks Available for Public Use in Patent and Trademark Depository Libraries

The following libraries, designated as Patent and Trademark Depository Libraries (PTDLs), receive patent and trademark information in various formats from the U.S. Patent and Trademark Office. Many PTDLs have on file all full-text patents issued since 1790, trademarks published since 1872, and select collections of foreign patents. All PDTLs have both the patent and trademark sections of the *Official Gazette of the U. S. Patent and Trademark Office*. The full-text utility and design patents are distributed numerically on 16 mm microfilm, and plant patents on color microfiche. Patent and trademark search systems on CD-ROM (Compact Disc-Read Only) format are available at all PTDLs to increase utilization of and enhance access to the information found in patents and trademarks. It is through the CD-ROM systems that prelminary patent and trademark searches can be conducted through the numerically arranged collections.

All information is available for use by the public free of charge.

In addittion, each PTDL offers reference publications which outline and provide access to the patent and trademark classification systems, as well as other documents and publications which supplement the basic search tools. PTDLs provide technical staff assistance in using all materials. Facilities for making paper copies of patent and trademark information are generally provided for a fee.

Since there are variations in the scope of patent and trademark collections among the PTDLs, and their hours of service to the public vary, anyone contemplating use of these collections at a particluar library is urged to contact that library in advance about its collections, services and hours in order to avert possible inconvience.

The following marks are published in compliance with section 12(a) of the Trademark Act of 1946. Applications for the registration of marks in more than one class have been filed as provided in section 30 of said act as amended by Public Law 772, 87th Congress, approved Oct. 9, 1962, 76 Stat. 769. Opposition under section 13 may be filed within thirty days of the date of this publication. See rules 2.101 to 2.105.

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 2.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

CD-ROM Patent Images by Technology

The U.S. Patent and Trademark Office announces the implementation of a demonstration project to provide classified sets of patent images in CD-ROM format. The classified sets are collections of U.S. patents which, by virtue of their placement in the U.S. Patent Classification System, represent meaningful technological groupings.

The two classified sets selected for this project are: Genetic Engineering, as defined by Class 935 and Class 435, subclass 172.3; and Acid Rain, as defined by Class 55, subclass 73 and Class 423, subclasses 220-234 and 242-244.

The sets will contain:

1) current classification information
2) full images for all patents in the set, and
3) full text for those patents in the set where the text is available in electronic format, i.e., since 1971

All available text and classification information will be indexed and searchable, thus allowing all patents in the set to be retrieved by their associated classification information, and/or by words in the text. Images of all patents in the set will be stored in numeric sequence on the discs and may be located on a disc other than the disc where the text and indexes are stored. Images may be retrieved by patent number after loading the appropriate image disc.

It is anticipated that the demonstration CD-ROM sets will be available July 1992. Each set will consist of approximately three discs. They are available for order now by the public for $150 per set. This price represents the marginal cost to the U.S. Patent and Trademark Office to produce and distribute these discs based upon the volume of orders anticipated.

Purchasers will be invited to participate in a voluntary survey to be conducted in October 1992 to assess the usefulness of this demonstration product.

Mailing of Maintenance Fee Statements and Related Notices

The Patent Maintenance Division has been reviewing all processing steps and products to improve both the quality and timeliness of services. The Division has initiated a number of actions to work toward returning statements within 30 days of initial receipt and mailing all other maintenance fee related notices within 2 weeks. One key initiative is planning for the introduction of modern automated mailing equipment to enable the Division to process promptly and efficiently the more than 200,000 mailings expected this fiscal year.

Analysis of current and projected maintenance fee workloads has shown that continuing to use today's manual mailing procedures will result in about a 60 day turnaround time for customers to receive their statements unless an additional 3 staff members are hired at an annual cost of $60,000. An automatic mailing system can be purchased at a onetime cost of $15,000 to enable the Office to return statements in 30 calendar days without hiring additional staff.

While we believe that an automatic mailing system has significant advantages, the introduction of this new equipment would require three specific changes to our current practices to ensure that the Office can take full advantage of the technology to improve the overall level of services to the greatest number of customers.

First, the correspondence submitted to the Office at the time the maintenance fee is paid would no longer be returned with the payment statement. The practice of returning this material unduly complicates document collation and frequently leads to mismatched correspondence. Only the payment statement itself would be returned. Should any questions arise regarding payment, proof of payment could continue to be verified through presentation of the statement, a cancelled check, or by reference to the PTO deposit account statement. The Office's automated maintenance fee records and financial systems would continue to record and document all maintenance fee payments.

Second, the mailing of maintenance fee reminder notices would be streamlined by eliminating the "Part B" copy. This copy was designed to be returned with payment. However, the PTO does not need Part B and less than 2% of patent owners who submit payment after receipt of a reminder notice return the "Part B" copy. Dropping the mailing of this copy would increase the number of statements which could be mailed daily and eliminate the need to design and purchase specially notched paper for proper collation.

Third, the mailing of patent expiration notices would be streamlined by eliminating the "Part B" copy. The "Part B" copy of the expiration notice was designed as a mail-back copy for patent owners who wished to communicate with the Office concerning the notice, but less than 0.5% of these copies are returned. Dropping the mailing of this copy would increase the number of notices which could be mailed daily and eliminate the need for notched paper.

Based on recent informal discussions with a cross-section of patent maintenance fee customers, the Office believes the impact of these changes would be minimal, especially if the alternative were long delays in receiving statements and/or additional costs to the Office. However, the Office wants to provide other customers with an opportunity to comment before moving forward. Comments should be directed, either in writing or by telephone, by July 14, 1992, to:

Patent Information in CD-ROM and Diskette Format

The Patent and Trademark Office is currently making available to the public four CD-ROM patent information products: CASSIS/BIB, CASSIS/CLASS, CASSIS/ASSIGN, and ASIST.

These patent search tools were originally developed by the Patent and Trademark Office for use in the network of Patent and Trademark Depository Libraries, and replaced the Classification and Search Support Information System (CASSIS) on-line system used at these libraries. They are now available to anyone on a subscription basis.

CASSIS/BIB features bibliographic information for utility patents issued from 1969 to the present, and for other types of patent documents issued from 1977 to the present. That information includes year of issue, state/country of first listed inventor's residence, assignee at time of issue, status (i.e., withdrawn or expired for failure to pay maintenance fees), current classification, patent title, and patent abstracts (through the most recent three-year period, as disc space allows).

CASSIS/CLASS contains current classification information for all utility, design, plant, reissue and X-numbered patents as well as Defensive Publications and Statutory Invention Registrations issued from 1790 to present (over 5 million documents). Indexing of classification information has been optimized for rapid retrieval.

CASSIS/ASIGN includes assignments recorded at the Patent and Trademark Office after Aug. 1980 to the present. The entire assignment record for patents may be searched, including assignments recorded before and after a patent issued.

ASIST is a compilation of many patent and classification search tools, previously available only in paper or microfiche format, and includes:

Manual of Classification
Index to the U.S. Patent Classification
Manual of Patent Examining Procedure
IPC-USPC Concordance
Attorneys and Agents Registered to Practice Before the U.S. Patent and Trademark Office

In addition, Classification Definitions, a Patentee-Assignee file, and a Classification Orders Index are included. The Patentee-Assignee file shows assignments at time of issue for utility patents 1969 to present; for other patent types, 1977 to present; and for inventors, 1975 to present. The Classification Orders Index is a list of subclass numbers abolished and established since 1976 with corresponding Classification Order number and effective date.

In addition to the word-searching capabilities inherent in CD-ROM, subscribers receive information updated more frequently than in paper or fiche format.

CD-ROM products in the CASSIS series are updated and mailed approximately six times per year. ASIST is updated and forwarded approximately four times per year.

CASSIS/BIB, CASSIS/CLASS, AND CASSIS/ASIGN are currently offered at a subscription price of $210/year to the U.S., Mexico and Canada, or $252/year to all other addresses. The current subscription price for ASIST is $161/year to the U.S., Mexico and Canada or $193/year to all other addresses.

Included with a subscription are manuals for installation and use of the retrieval software, which are the only user support available from the Patent and Trademark Office.

In addition to the accessibility of the *Manual of Patent Examining Procedure* on CD-ROM, the *Manual* is now also available on diskette, allowing users to print, view or search the *Manual* on an AT class IBM compatible PC (or better) with 512K RAM, hard drive and floppy disk drive. **MPEP on Disk** may be ordered on 5.25" or 3.5" diskettes for $50 (U.S. Canada and Mexico), or $60 (all other addresses). *FolioViews* search software allows the user to navigate through the text by use of hyperlinks, Boolean and proximity searches.

NOTICE OF EXAMINATION FOR REGISTRATION WEDNESDAY, OCTOBER 14, 1992

Pursuant to the provisions of 37 CFR §§ 10.5, 10.6 and 10.7, an examination for persons seeking registration before the United States Patent and Trademark Office as patent attorneys and agents will be held on Wednesday, OCTOBER 14, 1992. The deadline for filing applications along with the $290.00 examination fee and *all* necessary showings required by 37 CFR § 10.7(a) and (b) is July 31, 1992.

With the exception of those persons who actively served four years or more in the examining corps of the United States Patent and Trademark Office for whom the examination may be waived, all persons who wish to become recognized to practice before the United States Patent and Trademark Office in patent cases must, pursuant to the above noted rules, pass the examination. Note that passing the examination does not qualify one for recognition for practice before the Patent and Trademark Office in trademark cases. Such recognition is governed by 37 CFR §10.14 which does not require the passing of an examination.

There is no limit on the number of times the registration examination may be taken. The examination consists of two parts, a morning section and an afternoon section. To pass the examination, an applicant must pass both sections. An applicant who passes one section of the examination, but who fails the other section, will not be required to retake the section passed, *provided* the applicant takes and passes the section failed in one of the next three examinations regularly scheduled by the Patent and Trademark Office. If the applicant does not pass the section failed in one of the next three examinations scheduled, the applicant must retake both sections of the examination. No extensions of time will be granted except in extraordinary circumstances, e.g., an accident or hospitilization just prior to the examination which prevented the applicant from taking the examination.

Application forms may be obtained from the Office of Enrollment and Discipline, Suite 4B30, 2900 Crystal Drive, South Tower, Arlington, Va., or by mail addressed to U.S. Patent and Trademark Office, Box OED, Washington, DC 20231.

Reference Collections of U.S. Patents and Trademarks Available for Public Use in Patent and Trademark Depository Libraries

The following libraries, designated as Patent and Trademark Depository Libraries (PTDLs), receive patent and trademark information in various formats from the U.S. Patent and Trademark Office. Many PTDLs have on file all full-text patents issued since 1790, trademarks published since 1872, and select collections of foreign patents. All PDTLs have both the patent and trademark sections of the *Official Gazette of the U. S. Patent and Trademark Office*. The full-text utility and design patents are distributed numerically on 16 mm microfilm, and plant patents on color microfiche. Patent and trademark search systems on CD-ROM (Compact Disc-Read Only) format are available at all PTDLs to increase utilization of and enhance access to the information found in patents and trademarks. It is through the CD-ROM systems that prelminary patent and trademark searches can be conducted through the numerically arranged collections.

All information is available for use by the public free of charge.

In addition, each PTDL offers reference publications which outline and provide access to the patent and trademark classification systems, as well as other documents and publications which supplement the basic search tools. PTDLs provide technical staff assistance in using all materials. Facilities for making paper copies of patent and trademark information are generally provided for a fee.

Since there are variations in the scope of patent and trademark collections among the PTDLs, and their hours of service to the public vary, anyone contemplating use of these collections at a particluar library is urged to contact that library in advance about its collections, services and hours in order to avert possible inconvience.

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).
